Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) has received a request for a waiver of compliance from certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

BNSF Railway Company

[Waiver Petition Docket Number FRA–2009–0048]

The BNSF Railway Company (BNSF) requests a waiver of compliance from the requirements of 49 CFR Part 240, Qualification and Certification of Locomotive Engineers, specifically, § 240.129. BNSF's specific request is for a waiver from the requirement that locomotive engineers have annual operational performance evaluations as provided under the procedures pursuant to Sections 240.129(b), (c), and (e).

Section 240.129(b) requires a railroad to "have procedures for monitoring the operational performance of those it has determined as qualified as a locomotive engineer." Section 240.129(c) provides the requirements of the procedures referenced under (b), including that the engineer "shall be annually monitored (check ride) by a Designated Supervisor of Locomotive Engineers" and is either "accompanied by the designated supervisor" or "has his or her train handling activities electronically recorded." BNSF has a program to comply with these requirements. Section 240.129(e) requires the railroad to have an operational testing and monitoring program in place, and to perform at least one unannounced test each calendar year. This program must be designed to monitor compliance with railroad operating rules and other

directives, and to examine and test such compliance.

BNSF is currently working to implement an automatic control system that will allow the engineer certification database to connect directly to the crew database. By connecting these systems, BNSF will then be able to constantly validate information to safeguard against engineers falling outside of the provisions of Section 240.129. Once this system is fully functioning, individuals who are not current on the check-ride requirement or operational testing will automatically be prevented from operating a locomotive until such time as they meet the requirements of this rule. BNSF plans to have this system in place and fully functional by the end of August 2009. As a result, the relief granted under this waiver request will neither lead to a degradation of safety nor to any conflict with the intent of the rule.

BNSF has several employees certified under 49 CFR Part 240 for service who are not currently performing the duties that require this certification. Some of these individuals have bid on and taken positions in other service, while others have been furloughed. As a result, these individuals are not in a position to operate locomotives as an engineer. BNSF requests relief from Section 240.129 to avoid having to perform operational performance evaluations on individuals who are currently out of locomotive engineer service. Waiving performance of these evaluations on individuals not currently active as locomotive engineers is consistent with the general application of Part 240, which applies to "any person who operates locomotives."

These individuals are not operating locomotives, nor will they be allowed to operate locomotives under BNSF's control system. Performance of the operational evaluation on individuals not currently operating locomotives causes safety concerns because it requires calling a person in for the sole purpose of an evaluation ride and also because it would lead to those individuals achieving technical compliance with the rule only to go back to prolonged service in areas other than operation of locomotives. BNSF's proposal provides the operational evaluation at a time prior to the full operation of a locomotive, in compliance with the rules, but also at a time that is contemporary to the return to the active operation of locomotives.

BNSF requests this waiver as a method of ensuring that active locomotive engineers receive timely and appropriate training and monitoring as required for compliance with the rule.

Through granting this waiver, BNSF believes there will be no negative impact on safety. As described, BNSF will not permit any locomotive engineer to operate a locomotive without being in full compliance with Part 240, including Section 129, of which relief is requested. BNSF believes this process will promote enhanced safety by providing for the operational performance evaluations to be done as these engineers return to active engine service such that safe operation is fresh in their minds upon their return.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number FRA–2009–0048) and may be submitted by any of the following methods:

Background

On October 21, 1995, the President, invoking the authority, *inter alia*, of the International Emergency Economic Powers Act (50 U.S.C. 1701–1706) ("IEEPA"), issued Executive Order 12978 (60 FR 54579, October 24, 1995) (the "Order"). In the Order, the President declared a national emergency to deal with the threat posed by significant foreign narcotics traffickers centered in Colombia and the harm that they cause in the United States and abroad.

Section 1 of the Order blocks, with certain exceptions, all property and interests in property that are in the United States, or that hereafter come within the United States or that are or hereafter come within the possession or control of United States persons, of: (1) The persons listed in an Annex to the Order; (2) any foreign person determined by the Secretary of Treasury, in consultation with the Attorney General and Secretary of State: (a) To play a significant role in international narcotics trafficking centered in Colombia; or (b) to materially assist in, or provide financial or technological support for or goods or services in support of, the narcotics trafficking activities of persons designated in or pursuant to the Order; and (3) persons determined by the Secretary of the Treasury, in consultation with the Attorney General and the Secretary of State, to be owned or controlled by, or to act for or on behalf of, persons designated pursuant to the Order.

On June 10, 2009, the Director of OFAC removed from the SDN List the four individuals listed below, whose property and interests in property were blocked pursuant to the Order.

The listing of the unblocked individuals follows:

RAMIREZ DE RAMOS, Amparo, c/o INVERSIETE S.A., Cali, Colombia; c/o INVERSIONES Y CONSTRUCCIONES ATLAS LTDA., Cali, Colombia; DOB 1
