RIN 2127-AK47

Federal Motor Vehicle Theft Prevention Standard; Final Listing of 2010 Light Duty Truck Lines Subject to the Requirements of This Standard and Exempted Vehicle Lines for Model Year 2010

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation.

ACTION: Final rule.

SUMMARY: This final rule announces NHTSA's determination that there are no new model year (MY) 2010 light duty

truck lines subject to the parts-marking requirements of the Federal motor vehicle theft prevention standard because they have been determined by the agency to be high-theft or because they have a majority of interchangeable parts with those of a passenger motor vehicle line. This final rule also identifies those vehicle lines that have been granted an exemption from the parts-marking requirements because the vehicles are equipped with antitheft devices determined to meet certain statutory criteria.

DATES: *Effective Date:* This final rule is effective June 24, 2009.

FOR FURTHER INFORMATION CONTACT: Ms. Rosalind Proctor, Consumer Standards Division, Office of International Policy, Fuel Economy and Consumer Programs, NHTSA, West Building, 1200 New Jersey Avenue, SE., (NVS-131, Room W43-302) Washington, DC 20590. Ms. Proctor's telephone number is (202) 366-0846. Her fax number is (202) 493-0073.

SUPPLEMENTARY INFORMATION: The theft prevention standard applies to: (1) All passenger car lines; (2) all multipurpose passenger vehicle (MPV) lines with a gross vehicle weight rating (GVWR) of 6,000 pounds or less; (3) low-theft light-duty truck (LDT) lines with a GVWR of 6,000 pounds or less that have major parts that are interchangeable with a majority of the covered major parts of passenger car or MPV lines; and (4) high-theft light-duty truck lines with a GVWR of 6,000 pounds or less.

The purpose of the theft prevention standard (49 CFR Part 541) is to reduce the incidence of motor vehicle theft by facilitating the tracing and recovery of parts from stolen vehicles. The standard seeks to facilitate such tracing by requiring that vehicle identification numbers (VINs), VIN derivative numbers, or other symbols be placed on major component vehicle parts. The theft prevention standard requires motor vehicle manufacturers to inscribe or affix VINs onto covered original equipment major component parts, and to inscribe or affix a symbol identifying the manufacturer and a common symbol identifying the replacement component parts for those original equipment parts, on all vehicle lines subject to the requirements of the standard.

Section 33104(d) provides that once a line has become subject to the theft prevention standard, the line remains subject to the requirements of the standard unless it is exempted under § 33106. Section 33106 provides that a manufacturer may petition annually to have one vehicle line exempted from the requirements of § 33104, if the line

is equipped with an antitheft device meeting certain conditions as standard equipment. The exemption is granted if NHTSA determines that the antitheft device is likely to be as effective as compliance with the theft prevention standard in reducing and deterring motor vehicle thefts.

The agency annually publishes the names of those LDT lines that have been determined to be high theft pursuant to 49 CFR Part 541, those LDT lines that have been determined to have major parts that are interchangeable with a majority of the covered major parts of passenger car or MPV lines and those vehicle lines that are exempted from the theft prevention standard under section 33104. Appendix A to Part 541 identifies those LDT lines that are or will be subject to the theft prevention standard beginning in a given model year. Appendix A-I to Part 541 identifies those vehicle lines that are or have been exempted from the theft prevention standard.

For MY 2010, there are no new LDT lines that will be subject to the theft prevention standard in accordance with the procedures published in 49 CFR Part 542. Therefore, Appendix A does not need to be amended.

For MY 2010, the list of lines that have been exempted by the agency from the parts-marking requirements of Part 541 is amended to include nine vehicle lines newly exempted in full. The nine exempted vehicle lines are the Dodge Journey, GMC Terrain, Mazda Tribute, Mercury Mariner, Mitsubishi Lancer, Nissan Murano, Porsche Panamera, Subaru Outback and Volkswagen Audi A3.

We note that the agency removes from the list being published in the **Federal Register** each year certain vehicles lines that have been discontinued more than 5 years ago. Therefore, the Chrysler Conquest, Cadillac STS/Seville, Mitsubishi Diamante, Infiniti I30, J30, M30, QX4, and the Volkswagen Cabrio have been removed from the Appendix A-I listing. The agency will continue to maintain a comprehensive database of all exemptions on our web site. However, we believe that re-publishing a list containing vehicle lines that have not been in production for a considerable period of time is unnecessary.

The vehicle lines listed as being exempt from the standard have previously been exempted in accordance with the procedures of 49 CFR Part 543 and 49 U.S.C., 33106. Therefore, NHTSA finds for good cause that notice and opportunity for comment on these listings are unnecessary. Further, public comment
