#### Foreign-Trade Zone 20—Suffolk, VA; Scope Clarification Request—Foreign-Trade Subzone 20D, Canon Virginia, Inc.—Newport News, VA (Computer Printers and Related Products)

A request for clarification of scope has been submitted to the Foreign-Trade Zones Board (the Board) by Canon Virginia, Inc. (Canon), operator of Foreign-Trade Subzone 20D at Canon's computer printer and related products manufacturing facilities in Newport News, Virginia.

A grant of authority for Canon's subzone was issued on November 21, 2002, with manufacturing authority for computer printers, printer cartridges and drums, toner and toner bottles, and refurbished copiers (Board Order 1262, 67 FR 71934, 12/03/2002). Canon listed in the original application specific components which would be used in manufacturing and also listed categories of components which might be sourced from abroad in the future. The current request involves Canon's toner cartridge and subassembly and toner bottle production (HTSUS 8443.99—duty free). Canon has informed the Board that this production will involve the use of imported materials that were not specifically listed as foreign-sourced components in the original subzone request. The company now plans to use foreign-sourced Teflon solution (HTSUS 3403.19.5000—5.8%), strontium ferrite compound (HTSUS 2841.90.5000—3.7%) and barium sulfate mixture (HTSUS 3824.90.9290—5%) in its toner cartridge and subassembly production and strontium ferrite compound in its toner bottle production.

The FTZ staff invites the comments of interested parties for consideration in its review. Submissions shall be addressed to the Board's Executive Secretary at the address listed below. The closing period for their receipt is July 24, 2009.

### International Trade Administration

#### Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (“the Department”) has received requests to conduct administrative reviews of various antidumping and countervailing duty orders and findings with May anniversary dates. In accordance with the Department’s regulations, we are initiating those administrative reviews. The Department also received requests to revoke two antidumping duty orders in part.

**DATES:** *Effective Date:* June 24, 2009.

**FOR FURTHER INFORMATION CONTACT:** Sheila E. Forbes, Office of AD/CVD Operations, Customs Unit, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230, telephone: (202) 482-4697.

#### SUPPLEMENTARY INFORMATION:

##### Background

The Department has received timely requests, in accordance with 19 CFR 351.213(b), for administrative reviews of various antidumping and countervailing duty orders and findings with May anniversary dates. The Department also received requests to revoke in part the antidumping duty orders on Ball Bearings and Parts Thereof from Japan for three exporters and from the United Kingdom for one exporter.

##### Notice of No Sales

Under 19 CFR 351.213(d)(3), the Department may rescind a review where there are no exports, sales, or entries of subject merchandise during the respective period of review (“POR”) listed below. If a producer or exporter named in this initiation notice had no exports, sales, or entries during the POR, it should notify the Department within 30 days of publication of this notice in the **Federal Register**. The Department will consider rescinding the review only if the producer or exporter, as appropriate, submits a properly filed

and timely statement certifying that it had no exports, sales, or entries of subject merchandise during the POR. All submissions must be made in accordance with 19 CFR 351.303 and are subject to verification in accordance with section 782(i) of the Tariff Act of 1930, as amended (“the Act”). Six copies of the submission should be submitted to the Assistant Secretary for Import Administration, International Trade Administration, Room 1870, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230. Further, in accordance with 19 CFR 351.303(f)(1)(i), a copy of each request must be served on every party on the Department’s service list.

##### Respondent Selection

In the event the Department limits the number of respondents for individual examination for administrative reviews, the Department intends to select respondents based on U.S. Customs and Border Protection (“CBP”) data for U.S. imports during the POR. We intend to release the CBP data under Administrative Protective Order (“APO”) to all parties having an APO within five days of publication of this initiation notice and to make our decision regarding respondent selection within 20 days of publication of this **Federal Register** notice. The Department invites comments regarding the CBP data and respondent selection within 10 calendar days of publication of this **Federal Register** notice.

##### Separate Rates

In proceedings involving non-market economy (“NME”) countries, the Department begins with a rebuttable presumption that all companies within the country are subject to government control and, thus, should be assigned a single antidumping duty deposit rate. It is the Department’s policy to assign all exporters of merchandise subject to an administrative review in an NME country this single rate unless an exporter can demonstrate that it is sufficiently independent so as to be entitled to a separate rate.

To establish whether a firm is sufficiently independent from government control of its export activities to be entitled to a separate rate, the Department analyzes each entity exporting the subject merchandise under a test arising from the *Final Determination of Sales at Less Than Fair Value: Sparklers From the People’s Republic of China*, 56 FR 20588 (May 6, 1991), as amplified by *Final Determination of Sales at Less Than Fair Value: Silicon Carbide From the*

*People’s Republic of China*, 59 FR 22585 (May 2, 1994). In accordance with the separate-rate criteria, the Department assigns separate rates to companies in NME cases only if respondents can demonstrate the absence of both *de jure* and *de facto* government control over export activities.

All firms listed below that wish to qualify for separate-rate status in the administrative reviews involving NME countries must complete, as appropriate, either a separate-rate application or certification, as described below. For these administrative reviews, in order to demonstrate separate-rate eligibility, the Department requires entities for whom a review was requested, that were assigned a separate rate in the most recent segment of this proceeding in which they participated, to certify that they continue to meet the criteria for obtaining a separate rate. The Separate Rate Certification form will be available on the Department’s Web site at <http://ia.ita.doc.gov/nme/nme-sep-rate.html> on the date of publication of this **Federal Register** notice. In responding to the certification, please follow the “Instructions for Filing the Certification” in the Separate Rate Certification. Separate Rate Certifications are due to the Department no later than 30 calendar days after publication of this **Federal Register** notice. The deadline and requirement for submitting a Certification applies equally to NME-owned firms, wholly foreign-owned firms, and foreign sellers who purchase and export subject merchandise to the United States.

Entities that currently do not have a separate rate from a completed segment of the proceeding<sup>1</sup> should timely file a Separate Rate Application to demonstrate eligibility for a separate rate in this proceeding. In addition, companies that received a separate rate in a completed segment of the proceeding that have subsequently made changes, including, but not limited to, changes to corporate structure, acquisitions of new companies or facilities, or changes to their official company name,<sup>2</sup> should timely file a Separate Rate Application

<sup>1</sup> Such entities include entities that have not participated in the proceeding, entities that were preliminarily granted a separate rate in any currently incomplete segment of the proceedings (e.g., an ongoing administrative review, new shipper review, etc.) and entities that lost their separate rate in the most recently completed segment of the proceeding in which they participated.

<sup>2</sup> Only changes to the official company name, rather than trade names, need to be addressed via a Separate Rate Application. Information regarding new trade names may be submitted via a Separate Rate Application.
