SUPPLEMENTARY INFORMATION: A Notice to amend this System of Records was published in the **Federal Register** of August 29, 1989 (75VA001B).

I. Description of the System of Records

This System of Records, now known as "Department of Veterans Affairs Secretary's Official Correspondence Records-VA," is the Secretary's Official Correspondence Records, which include the name, address and other identifying information pertaining to the correspondent, as well as background information concerning matters which the correspondent has brought to the Department's attention. The System of Records also contains documents generated within VA which may contain the names, addresses and other identifying information of individuals who conduct business with VA, as well as material received, background information compiled and/or response sent.

II. Proposed Routine Use Disclosures of Data in the System

VA is rewriting existing routine uses in the System using plain language. The use of plain language in these routine uses does not, and is not intended to, change the disclosures authorized under these routine uses. VA is amending, deleting, rewriting and reorganizing the order of the routine uses in this system of records, as well as adding new routine uses. Accordingly, the following changes are made to the current routine uses and are incorporated in the amended system of records notice.

Current routine use number 1 is amended to more accurately reflect VA's authorization to disclose individually-identifiable information to Members of Congress, or a staff person acting for the

Member, when the Member or staff person requests the records on behalf of and at the written request of the individual. This amendment clarifies that a written request is required.

Current routine use number 2 is deleted in its entirety and the information contained therein is clarified with the addition of routine use number 6.

New routine uses number 2 through number 7 are added. New routine use number 2 addresses disclosure to the National Archives and Records Administration in records management inspections conducted under authority of title 44 U.S.C.

New routine use number 3 addresses disclosure of information in legal proceedings and to the Department of Justice. In determining whether to disclose records under this routine use, VA will comply with the guidance promulgated by the Office of Management and Budget (OMB) in a May 24, 1985, memorandum entitled: "Privacy Act Guidance—Update" currently posted at: <http://www.whitehouse.gov/omb/inforeg/guidance1985.pdf>.

New routine use number 4 addresses the disclosure of relevant information to individuals, organizations, private or public agencies, or other entities with which VA has a contract or agreement.

New routine use number 5 addresses that VA may disclose information in the system, except the names and home addresses of veterans and their dependents, that is relevant to a suspected or reasonably imminent violation of the law. VA may also disclose the names and addresses of veterans and their dependents to a Federal agency charged with the responsibility of investigating or prosecuting civil, criminal, or regulatory violations of law.

New routine use number 6 addresses when VA may disclose to other Federal agencies to assist such agencies in preventing and detecting possible fraud or abuse by individuals in their operations and programs.

New routine use number 7 addresses the circumstances, and to whom, VA may disclose records to respond to, and minimize possible harm to, individuals as a result of a data breach. This routine use is promulgated to meet VA's statutory duties under 38 U.S.C. 5724 and The Privacy Act, 5 U.S.C. 552a, as amended.

III. Compatibility of the Proposed Routine Uses

Release of information from these records, pursuant to routine uses, will be made only in accordance with the

Privacy Act of 1974. The Privacy Act of 1974 permits agencies to disclose information about individuals, without their consent, for a routine use when the information will be used for a purpose that is compatible with the purpose for which the information was collected. VA has determined that the disclosure of information for the above-stated purposes in the proposed amendment to routine uses is a proper and necessary use of the information collected by the electronic document tracking system, and is compatible with the purpose for which VA collected the information.

The notice of intent to publish an advance copy of the system notice has been sent to the appropriate Congressional committees and to the Director of the Office of Management and Budget (OMB) as required by 5 U.S.C. 552a(r) (Privacy Act) and guidelines issued by OMB (65 FR 77677), December 12, 2000.

Approved: June 9, 2009.

John R. Gingrich,

Chief of Staff, Department of Veterans Affairs.

VA, on its own initiative, may disclose records in this system of records in legal proceedings before a court or administrative body after determining that the disclosure of the records to the court or administrative body is a use of

the information contained in the records that is compatible with the purpose for which VA collected the records.

7. VA may, on its own initiative, disclose any information or records to appropriate agencies, entities, and persons when (1) VA suspects or has confirmed that the integrity or confidentiality of information in the system of records has been compromised; (2) the Department has determined that as a result of the suspected or confirmed compromise, there is a risk of embarrassment or harm to the reputations of the record subjects, harm to economic or property interests, identity theft or fraud, or harm to the security, confidentiality, or integrity of this system or other systems or programs (whether maintained by the Department or another agency or entity) that rely upon the potentially compromised information; and (3) the disclosure is to agencies, entities, or persons whom VA determines are reasonably necessary to assist or carry out the Department's efforts to respond to the suspected or confirmed

compromise and prevent, minimize, or remedy such harm (have already determined this does not make sense; see my possible solution in the preamble). This routine use permits disclosures by the Department to respond to a suspected or confirmed data breach, including the conduct of any risk analysis or provision of credit protection services as provided in 38 U.S.C. 5724, as the terms are defined in 38 U.S.C. 5727.
