Rural Housing Service

Title: 7 CFR 1944-N—Housing Preservation Grants.

OMB Control Number: 0575–0115.

Summary of Collection: The Rural Housing Service (RHS) is authorized to make grants to eligible applicants to provide repair and rehabilitation assistance so that very low- and low-income rural residents can obtain adequate housing. Such assistance is made by grantees to very low- and low-income persons, and to co-ops. Grant funds are used by grantees to make loans, grants, or other comparable assistance to eligible homeowners, rental unit owners, and co-ops for repair and rehabilitation of dwellings to bring them up to code or minimum property standards. These grants were established by Public Law 98–181, the Housing Urban Rural Recovery Act of 1983, which amended the Housing Act of 1949 (Pub. L. 93–383) by adding section 533, 42 U.S.C. S 2490(m), Housing Preservation Grants.

Need and Use of the Information: An applicant will submit a “Statement of Activity” that describes its proposed program. RHS will collect information to determine eligibility for a grant to justify its selection of the applicant for funding; to report program accomplishments and to justify and support expenditure of grant funds. RHS uses the information to determine if the grantee is complying with its grant agreement and to make decisions regarding continuing with modifying, or terminating grant assistance. If the information were not collected and presented to RHS, the Agency could not monitor the program or justify disbursement of grant funds.

Description of Respondents: Not-for-profit institutions; Business or other for-profit; Individuals or households; State, Local or Tribal Government.

Animal & Plant Health Inspection Service

Title: National Poultry Improvement Plan (NPIP).

OMB Control Number: 0579–0007.

Summary of Collection: The National Poultry Improvement Plan (NPIP) is a voluntary Federal-State-industry mechanism for controlling certain poultry diseases and for improving poultry flocks and products through disease control techniques. The National Turkey Improvement Plan was combined with the NPIP in 1970 to create the NPIP, as it now exists. Emu, rhea, ostrich, and cassowary breeding flocks are also allowed participation in the Plan. The effective implementation of the NPIP necessitates the use of several information collection activities, including sentinel bird identification, as well as the creation and submission of flock testing reports, sales reports, breeding flock participation summaries, hatchery participation summaries, salmonella investigation reports, salmonella serotyping requests, and small chick order printouts. Authority for this program is contained in the U.S. Department of Agriculture Organic Act of 1944, as amended (7 U.S.C. 429). The cooperative work is carried out through a Memorandum of Understanding with the participating States.

Need and Use of the Information: Information is collected from various types of poultry breeders and flock owners to determine the number of eggs hatched and sold as well as to report outbreaks of diseases. This information allows APHIS officials to track, control, and prevent many types of poultry diseases. APHIS will use several forms to collect the needed information.

Description of Respondents: State, Local or Tribal Government; Federal Government; Farms.

Number of Respondents: 12,232.

Frequency of Responses: Recordkeeping; Reporting: On occasion.
