Notice of Intent To Prepare an Environmental Impact Statement for the Long-Term Management and Storage of Elemental Mercury

AGENCY: Department of Energy.

ACTION: Notice of intent.

SUMMARY: As required by the Mercury Export Ban Act of 2008 (Pub. L. 110-414), hereafter referred to as the Act, the Department of Energy (DOE or the Department) plans to designate a facility or facilities for the long-term management and storage of elemental mercury generated within the United States. To this end, the Department intends to prepare an environmental impact statement (EIS) in accordance with the National Environmental Policy Act (NEPA) of 1969 regulations of the President's Council on Environmental Quality (40 CFR parts 1500-1508) and DOE's implementing procedures (10 CFR part 1021). This EIS will evaluate alternatives for such a facility or facilities in order to have the requisite capability operational by January 1, 2013, as stipulated in the Act. The United States Environmental Protection Agency (EPA) is a cooperating agency for this EIS.

DATES: DOE invites public comment on the scope of this EIS during a 45-day public scoping period commencing July 2, 2009 and ending on August 17, 2009. In defining the scope of the EIS, DOE will consider all comments received or postmarked by the end of the scoping period. Comments received or postmarked after the scoping period end date will be considered to the extent practicable. For dates, times and locations of public scoping meetings, see **SUPPLEMENTARY INFORMATION** below.

ADDRESSES: Written comments on the scope of the EIS may be submitted by mail to: Mr. David Levenstein, EIS Document Manager, P.O. Box 2612, Germantown, MD 20874, by toll free fax to 1-877-274-5462; or through the EIS Web site at <http://www.mercurystorageeis.com>.

To be placed on the EIS distribution list, any of the methods listed under **ADDRESSES** above can be used. In

requesting a copy of the Draft EIS, please specify whether the request is for a copy of the Summary only, the entire Draft EIS, or the entire Draft EIS (which includes the Summary) on a compact disc. In addition, the Draft EIS will be available on the DOE NEPA Web site at <http://www.gc.energy.gov/NEPA/> and at the EIS Web site referenced above.

FOR FURTHER INFORMATION CONTACT: For further information about the EIS, please contact David Levenstein, EIS Document Manager, Office of Regulatory Compliance (EM-10), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585. SUPPLEMENTARY INFORMATION:

Background

The Mercury Export Ban Act of 2008 (Pub. L. 110-414) prohibits, as of January 1, 2013, the sale, distribution, or transfer of elemental mercury by Federal agencies to any other Federal agency, any State or local government agency, or any private individual or entity that is under the control of a Federal agency (with certain limited exceptions). It also prohibits the export of elemental mercury from the United States effective January 1, 2013 (subject to certain essential use exceptions). Section 5 of the Act, *Long-Term Storage*, directs DOE to designate a facility or facilities for the long-term management and storage of elemental mercury generated within the United States. DOE's facility or facilities must be operational by January 1, 2013, and ready to accept custody of elemental mercury delivered to such a facility. The Act also requires DOE to assess fees based upon the pro rata costs of long-term management and storage.

Inventory: There are several sources of elemental mercury in the United States, including mercury used in the chlorine and caustic soda manufacturing process (i.e., chlor-alkali industry), reclaimed from recycling and waste recovery activities, and generated as a byproduct of the gold mining process. In addition, DOE stores approximately 1,200 metric tons of elemental mercury at the Y-12 National Security Complex in Oak Ridge, Tennessee. The Department of Defense (DOD) stores approximately
