Information Collection Requirement

Title: Public Collection of Information Regarding Security Programs for Foreign Air Carriers.

Type of Request: Reinstatement.

OMB Control Number: 1652-0005.

Form(s): Supplemental Information Form.

Affected Public: Foreign Air Carriers.

Abstract: Based on 49 CFR part 1546, Security Programs for Foreign Air Carriers, TSA requires foreign air carriers to submit the following information: (1) A master crew list of all flight deck and cabin crew members flying to and from the United States; (2) the flight crew list on a flight-by-flight basis; (3) passenger information on a flight-by-flight basis; and (4) total amount of cargo screened onboard flights departing airports within the United States, consisting of cargo screened at 100 percent and cargo screened at 50 percent. Foreign air carriers are required to provide this information via electronic means. Foreign air carriers with limited electronic systems may need to modify their current systems or generate a new computer system in order to submit the requested information. This information collection is mandatory for foreign air carriers and must be submitted in order to comply with their TSA-accepted security programs. Additionally, foreign air carriers must maintain these records as well as training records for crew members and individuals performing security-related functions, and make them available to TSA for inspection upon request.

Foreign air carriers must conduct a comparison of their passenger names and flight deck and cabin crewmember names against the TSA-issued watch lists and report passengers who have been confirmed as a match. TSA will

continue to collect information to determine foreign air carrier compliance with the requirements of 49 CFR part 1546.

TSA estimates that there will be approximately 162 respondents to the information collection, with an annual burden estimate of 747,387 hours.

Issued in Arlington, Virginia, on June 30, 2009.

Ginger LeMay,

Paperwork Reduction Act Officer, Business Improvements and Communications, Office of Information Technology.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Migratory Bird Treaty Act (16 U.S.C. 703-712) and the Fish and Wildlife Act of 1956 (16 U.S.C. 742d) designate the Department of the Interior as the key agency responsible for managing migratory bird populations that frequent the United States and for setting harvest regulations that allow for the conservation of those populations. These responsibilities include gathering accurate geographical and temporal data on various characteristics of migratory bird harvest. We use harvest data to issue harvest regulations, and we adjust the regulations as needed to provide maximum subsistence harvest opportunity while keeping migratory bird populations at desired and sustainable levels.
