Applicants' Representations

1. The Trust was organized as a Delaware statutory trust on August 29, 2007, and filed Form N-8A on July 21, 2008. On July 22, 2008, the Trust filed Form N-1A to register its non-diversified series, Federated Project and Finance Core Fund (the "Fund"), under the Act.

2. The Adviser, a wholly-owned subsidiary of Federated Investors, Inc., is an investment adviser registered under the Investment Advisers Act of 1940. The Adviser will serve as investment adviser to the Fund.

3. The investment objective of the Fund will be to provide total return comprised primarily from income arising out of investment in trade-finance and related securities and instruments. The Fund will invest primarily in trade, structured-trade, export and project finance or related assets of companies or other entities (including sovereign entities) located in developed markets as well as emerging markets. Applicants expect that a substantial portion of the Fund's assets will consist of a variety of trade finance securities and instruments that may not be readily sold and converted to cash within seven days. The Fund's investments, however, although less liquid than permissible for an open-end investment company in the absence of exemptive relief, will not be illiquid on a relative basis.¹ The board of trustees ("Board") of the Fund will approve written procedures reasonably designed to ensure that the Fund's portfolio assets are sufficiently liquid so that the Fund can comply with its fundamental policy on redemptions, taking into account current market conditions and the Fund's investment objectives. The Board will review the procedures and the overall composition of the portfolio at least annually.

4. Shares of the Fund will not be registered under the Securities Act of 1933 (the "1933 Act"); they will be offered and sold only in private

¹ At least 85% of the Fund's assets will be invested such that (a) the Fund reasonably believes that an asset can be sold or disposed of in the ordinary course of business at approximately the price used in computing the Fund's net asset value ("NAV"), in a period equal to the Fund's period for paying redemption proceeds (the period between tender and the Redemption Payment Date, as defined herein), or (b) an asset must mature before the next Redemption Payment Date.
