I. Funding Opportunity Description

Purpose of Program: The purpose of the Technical Assistance and Dissemination to Improve Services and Results for Children with Disabilities program is to promote academic

achievement and to improve results for children with disabilities by providing technical assistance (TA), supporting model demonstration projects, disseminating useful information, and implementing activities that are supported by scientifically based research.

Priority: In accordance with 34 CFR 75.105(b)(2)(v), this priority is from allowable activities specified in the statute or otherwise authorized in the statute (see sections 663 and 681(d) of the Individuals with Disabilities Education Act (IDEA), 20 U.S.C. 1400, *et seq.*).

Absolute Priority: For FY 2009 and any subsequent year in which we make awards based on the list of unfunded applicants from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is:

Technical Assistance and Dissemination to Improve Services and Results for Children With Disabilities—Regional Resource Centers.

Background

Over the last four decades, the Office of Special Education Programs (OSEP) has supported Regional Resource Centers to provide TA that is targeted to meet State-specific needs related to meeting the program requirements under Parts B and C of IDEA.

Historically, each RRC functioned independently, serving primarily as a TA provider to State educational agencies (SEAs) in the RRC's region helping the SEAs address self-identified needs related to providing services to children with disabilities. In 1998, RRCs' traditional role as TA providers expanded when they also began serving as brokers of TA, linking SEAs and local educational agencies (LEAs) to relevant OSEP-funded TA centers. Over time, and as OSEP developed its monitoring of Part C programs and issued monitoring reports from 1998 through 2003, RRCs began providing TA in their respective regions to the State Part C lead agencies (LAs).

When IDEA was last reauthorized in 2004, the increased general supervision responsibilities of SEAs and LAs under Parts B and C, respectively, also increased the need for general supervision support and collaboration among RRCs and other OSEP-funded TA Centers (*i.e.*, the National Dropout Prevention Center for Students with Disabilities and the Data Accountability Center) to provide coordinated and meaningfully informed TA. Specifically, sections 616(b) and 642 of IDEA require each State to have in place a State

Performance Plan (SPP) that evaluates the State's efforts to implement requirements under Parts B and C of IDEA and that describes how the State will improve its implementation of these requirements. The SPP must include measurable and rigorous targets for quantifiable indicators in the priority areas described in section 616(a)(3) of IDEA. These priority areas for Part B are—providing a free appropriate public education (FAPE) in the least restrictive environment (LRE); reducing disproportionate representation of racial and ethnic groups in special education and related services, to the extent the representation is the result of inappropriate identification; and ensuring effective general supervision, including child find, transition, and dispute resolution. These priority areas for Part C are—providing early intervention services in natural environments and ensuring effective general supervision, including child find, transition, and dispute resolution.

Additionally, sections 616 and 642 of IDEA require each SEA and LA to conduct many activities annually. Each SEA and LA must submit an Annual Performance Report (APR) to the Secretary on the State's progress in meeting its targets in each of the priority areas under Parts B and C of IDEA. There are 20 priority indicators under Part B (including early childhood transition, postsecondary transition, graduation, and dropout prevention) and 14 priority indicators under Part C (including provision of early intervention services in the natural environment, timely provision of services, timely evaluation, and early childhood transition). OSEP issues annual letters of determination and response tables for each State under Parts B and C of IDEA based in large part on the State's APR data in each of these priority indicator areas.

In turn, SEAs must monitor and evaluate LEAs' implementation of Part B, and State LAs must monitor and evaluate the implementation of Part C by early intervention service (EIS) programs. Each year, the SEA and LA must publicly report on the performance of each LEA or EIS program in each of the priority areas and issue a local "determination." Through such reporting, SEAs and LAs are responsible for ensuring both the continuous improvement of results and functional outcomes for children with disabilities and the timely correction of noncompliance with IDEA requirements.

The Department first issued its annual determinations under sections 616 and 642 of IDEA in 2007 and made one of

the following determinations for each State: (1) The State meets IDEA requirements, (2) the State needs assistance, or (3) the State needs intervention. Under section 616(e)(1) of IDEA, when conducting its second annual determinations in 2008, the Department was required to take enforcement actions for those States determined to be in "needs assistance" for two consecutive years. One of those enforcement options was advising a State of the availability of TA, including the resources of the RRCs and the need to utilize such TA. In 2008, the Department advised 25 Part B SEAs and 17 Part C LAs determined to be in "needs assistance" for two consecutive years of the requirement to access TA under section 616(e)(1)(A) of IDEA. In 2009, the Department must take specific enforcement actions for those States determined to be in "needs intervention" for three consecutive years, which may include the development of an improvement plan or corrective action plan. These enforcement options will require continued and additional TA support of SEAs and State LAs.

In addition, the State Fiscal Stabilization Fund (SFSF), authorized by the American Recovery and Reinvestment Act of 2009 (ARRA), Public Law No. 111-5, identifies four goals that the Secretary considers to be central to improving the results for children with disabilities. Areas addressed by these goals include: (1) Rigorous college- and career-ready standards and assessments; (2) State longitudinal data systems to track progress from pre-K to college or work; (3) improvements in teacher effectiveness; and (4) intensive support for the lowest-performing schools. The SFSF goals directly align with the SPP priority indicators and the SPP targets. The following Web site provides more information on ARRA: <http://www.ed.gov/policy/gen/leg/recovery/factsheet/stabilization-fund.html>.

To ensure that RRCs are available to meet these increased TA needs, OSEP has determined that new funding is needed to support consistent and collaborative work between the six regional RRCs while addressing the increased SEA and LA general supervision responsibilities under Parts B and C of IDEA.

Priority

The purpose of this priority is to fund cooperative agreements to support the operation of six RRCs that will collaboratively provide coordinated and research-based TA to SEAs and LAs to help them: (1) Meet Federal

accountability requirements under IDEA; (2) implement systems of general supervision that improve results and functional outcomes for children with disabilities; (3) work with OSEP-funded TA centers, as appropriate, to develop, identify, and implement evidenced-based tools and practices to increase the likelihood that SEAs and LAs will meet their SPP targets in the priority areas described in section 616(a)(3), such as providing FAPE in the LRE, early childhood transition, secondary transition, postsecondary outcomes, graduation, and dropout prevention; and (4) develop and implement strategies that address the SFSF goals outlined in the ARRA and other critical goals that align with the indicators established under IDEA.

The Secretary establishes the following geographic regions for the RRCs—

Region 1: Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont;

Region 2: Delaware, the District of Columbia, Kentucky, Maryland, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia;

Region 3: Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, Oklahoma, Texas, Puerto Rico, and the Virgin Islands;

Region 4: Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Ohio, and Wisconsin;

Region 5: Arizona, Colorado, Kansas, Montana, New Mexico, Nebraska, North Dakota, South Dakota, Utah, Wyoming, and the Bureau of Indian Affairs;

Region 6: Alaska, California, Hawaii, Idaho, Nevada, Oregon, Washington, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau.

To be considered for funding under this absolute priority, applicants must meet the application requirements contained in this priority. All projects funded under this absolute priority also must meet the programmatic and administrative requirements specified in the priority.

Application Requirements. An applicant must include in its application—

(a) A logic model for the RRC that depicts, at a minimum, the goals, activities, outputs, and outcomes of the proposed RRC. A logic model communicates how the RRC will achieve its outcomes and provides a framework for both the formative and summative evaluations of the RRC;

Note: The following Web site provides more information on logic models and lists multiple online resources: <http://www.cdc.gov/eval/resources.htm>.

(b) A plan to implement the activities described in the *Project Activities* section of this priority;

(c) A plan, linked to the proposed project's logic model, for a formative evaluation of the proposed project's activities. The plan must describe how the formative evaluation will use clear performance objectives to ensure continuous improvement in the operation of the proposed project, including objective measures of progress in implementing the project and ensuring the quality of products and services;

(d) A budget for a summative evaluation to be conducted by an independent third party;

(e) A budget for attendance at the following:

(1) A four day kick-off meeting to be held in Washington, DC, within four weeks after receipt of the award, and an annual two-day planning meeting held in Washington, DC, with the OSEP Project Officer during each subsequent year of the project period. The initial kick-off meeting must allow time for the RRCs to collectively develop an action plan to address how they will share resources when appropriate (see, e.g., paragraph (f) below). The action plan for year one must be finalized within three months of the award. The action plans for years two and three must be developed at the close of years one and two respectively.

(2) A three-day Project Directors' Conference in Washington, DC, during each year of the project period.

(3) A four-day Technical Assistance and Dissemination Conference in Washington, DC, during each year of the project period.

(4) Four two-day trips annually to attend Department briefings, Department-sponsored conferences, and other meetings, as requested by OSEP;

(f) A line item in the proposed budget that will support the cost, shared among all of the RRCs when established, for hiring, at a minimum, one full-time coordinator (1 FTE) who will manage the collaborative work of the RRCs; and

Note: Over the last two decades the RRCs received direct support (e.g., workgroup facilitation and technology development support, etc.) from the OSEP-funded Federal Resource Center. In 2008 the FRC was recompeted as the Technical Assistance Coordination Center (TACC). TACC is a coordination hub where the OSEP-funded centers and other Federal agencies find resources, collaborate, and problem-solve in order to conduct their work without

duplicating efforts. RRCs will receive the same level of support from TACC as all the other centers; however, the direct support once provided by the FRC (*i.e.*, the coordination of activities with the small States consortium, coordination of cross-RRC workgroups, the planning and facilitation of monthly RRC meetings) will no longer be available to the RRCs.

(g) A line item in the proposed budget for an annual set-aside of five percent of the grant amount to support emerging needs that are consistent with the proposed RRCs' shared project activities, as those needs are identified in consultation with OSEP.

Note: With approval from the OSEP Project Officer, the RRC must reallocate any remaining funds from this annual set-aside no later than the end of the third quarter of each budget period.

Project Activities. To meet the requirements of this priority, each RRC must, at a minimum, conduct the following activities:

Knowledge Development Activities

Each RRC, in collaboration with the other five RRCs, must—

(a) During the first year of the project conduct a systematic review of the former RRCs and other OSEP-funded TA Centers, as appropriate, that—

(1) Analyzes existing data (*e.g.*, data on previously developed scopes of work, tools, products, and staffing) collected on the nature of the TA provided and its evidence base; and

(2) By the end of year one, produces a summary report regarding the most effective types of TA and the best practices for implementing effective TA in SEAs and LAs; and

(b) Conduct an annual review of—

(1) Part B and Part C SPPs and APRs to evaluate States' progress in meeting their targets in each of the priority areas under IDEA; and

(2) OSEP letters of determination and response tables, including letters of determination and response tables of States determined to be in "needs assistance" for two consecutive years and States determined to be in "needs intervention" for three consecutive years, in order to develop an action plan for supporting SEAs and LAs in their development of improvement and corrective action plans.

Technical Assistance and Dissemination Activities

Each RRC must—

(a) Collaborate and communicate on an ongoing basis with the other five RRCs, the other OSEP-funded TA&D Centers, and the other centers funded by the Department's Office of Elementary and Secondary Education (*e.g.*, The

Regional Comprehensive Centers and the Equity Assistance Centers) to provide coordinated and research-based TA to SEAs and LAs;

(b) In collaboration with the other RRCs and OSEP-funded TA Centers, as appropriate—

(1) Develop action plans and activities based on OSEP-identified priorities, *i.e.*, all indicators found in the Part B and C SPPs. Action plans and activities may include items mentioned in activities (a), (b), and (c) under this section but are not limited to these activities;

(2) Develop TA tools and products related to SPP and APR requirements and evaluate the effectiveness of the implementation of these tools and products through annual assessments;

(3) Provide coordinated and research-based TA to SEAs and LAs to help them establish and implement strategies that address the four goals outlined in the ARRA and that are aligned with the indicators established under IDEA and other critical priorities related to improving outcomes for children with disabilities such as developing seamless, high-quality early childhood programs; scaling up successful models and strategies; and helping more students enter and complete college and get jobs; and

(4) Assist SEAs and LAs in refining and improving State policies, procedures, or both related to the Federal accountability requirements under IDEA; and

(c) Provide coordinated and research-based TA to SEAs and LAs to support them in meeting current IDEA requirements and OSEP initiatives for—

(1) Meeting APR reporting requirements (*e.g.*, data collection and analysis, and development, implementation, and evaluation of evidence-based improvement activities);

(2) Identifying improvement activities and, through annual assessments, determining if the newly identified activities are effective;

(3) Developing and implementing corrective action plans for LEAs and local providers, including implementation of enforcement actions for States in "needs intervention" for three consecutive years; and

(4) Improving general supervision at the SEA and LA level, including improving skills in fiscal management, policy development, practices and procedures, monitoring systems, and the timely correction of noncompliance with IDEA requirements.

Leadership and Coordination Activities

Each RRC, in collaboration with the other five RRCs, must do the following:

(a) Establish and maintain an advisory committee to review the activities and outcomes of the RRCs' collaborative work and provide programmatic support and advice throughout the project period. The committee must include, but is not limited to, SEA special education directors, Part C coordinators, directors of OESE-funded Regional Comprehensive Centers, and directors of OSEP-funded TA centers. The six RRCs must submit the names of proposed members of the advisory committee to OSEP for approval within eight weeks after receipt of the award. At a minimum, the advisory committee must meet on an annual basis either in Washington, DC, or by electronic means.

(b) Collaborate, on an ongoing basis, with OSEP-funded TA projects, especially those working on SPP indicators and general supervision. This collaboration must include the joint development of products, the coordination of TA services, and the planning and carrying out of TA meetings and events that are addressed in annual work plans.

(c) Participate in, organize, or facilitate, as directed by OSEP, communities of practice (<http://www.tacomunities.org>) that are aligned with the RRCs' objectives as a way to support discussions and collaboration among key stakeholders.

(d) Prior to developing any new product, whether paper or electronic, submit to the OSEP Project Officer and the Proposed Product Advisory Board at OSEP's TACC for approval, a proposal describing the content and purpose of the product.

(e) Maintain and upgrade the existing RRCs' Web site portal. (This portal can be found at <http://www.rfcnetwork.org>). This Web site must continue to meet government or industry-recognized standards for accessibility and must link to the Web site operated by TACC.

(f) Contribute, on an ongoing basis, updated information on the RRCs' services to OSEP's TA&D Matrix (<http://matrix.rfcnetwork.org>). The matrix provides current information on Department-funded TA services to a range of stakeholders.

(g) Coordinate with the National Dissemination Center for Individuals with Disabilities to develop an efficient and high-quality dissemination strategy that reaches broad audiences. The RRCs must report to the OSEP Project Officer the outcomes of these coordination efforts.

(h) Maintain ongoing communication with the OSEP Project Officer through monthly phone conversations, e-mail communication, and monthly reports.

Fourth and Fifth Years of the RRC

In deciding whether to continue funding the RRC for the fourth and fifth years, the Secretary will consider the requirements of 34 CFR 75.253(a), and in addition—

(a) The recommendation of a review team consisting of experts selected by the Secretary. This review will be conducted during a one-day intensive meeting in Washington, DC, that will be held during the last half of the second year of the project period;

(b) The timeliness and effectiveness with which all requirements of the negotiated cooperative agreement have been or are being met by the RRC; and

(c) The quality, relevance, and usefulness of the RRC's activities and products and the degree to which its activities and products have contributed to changed practice and improved State Parts B and C general supervision systems, SPPs, and APRs.

(1) You must indicate on the envelope and—if not provided by the Department—in Item 11 of the SF 424 the CFDA number, including suffix letter, if any, of the competition under which you are submitting your application; and

(2) The Application Control Center will mail to you a notification of receipt of your grant application. If you do not receive this grant notification within 15 business days from the application deadline date, you should call the U.S. Department of Education Application Control Center at (202) 245-6288.

V. Application Review Information

1. *Selection Criteria:* The selection criteria for this competition are from 34 CFR 75.210 and are listed in the application package.

2. *Peer Review:* In the past, the Department has had difficulty finding peer reviewers for certain competitions because so many individuals who are eligible to serve as peer reviewers have conflicts of interest. The Standing Panel requirements under IDEA also have placed additional constraints on the availability of reviewers. Therefore, the Department has determined that, for some discretionary grant competitions, applications may be separated into two or more groups and ranked and selected for funding within the specific groups. This procedure will make it easier for the Department to find peer reviewers by ensuring that greater numbers of individuals who are eligible to serve as reviewers for any particular group of applicants will not have conflicts of interest. It also will increase the quality, independence, and fairness of the review process while permitting panel members to review applications under discretionary grant competitions for which they also have submitted applications. However, if the Department decides to select an equal number of applications in each group for funding, this may result in different cut-off points for fundable applications in each group.

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to <http://www.ed.gov/fund/grant/apply/appforms/appforms.html>.

4. *Performance Measures:* Under the Government Performance and Results Act of 1993 (GPRA), the Department has established a set of performance measures, including long-term measures, that are designed to yield information on various aspects of the effectiveness and quality of the Technical Assistance and Dissemination to Improve Services and Results for Children With Disabilities program. These measures focus on the extent to which projects provide high-quality products and services, the relevance of project products and services to educational and early intervention policy and practice, and the use of products and services to improve educational and early intervention policy and practice.

Grantees will be required to report information on their project's performance in annual reports to the Department (34 CFR 75.590).
