

advisory committees and panels; expertise information (*e.g.*, *curricula vitae* and professional biographical sketches); and administrative history information (*e.g.*, history of personnel actions, confidential financial disclosure forms, and annual ethics training).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM (INCLUDES ANY REVISIONS OR AMENDMENTS):

The authority for the establishment or appointment of these advisory committees is as follows: For the SAB, the Environmental Research, Development, and Demonstration Authorization Act, 42 U.S.C. 4365; for the Clean Air Scientific Advisory Committee, section 109(d)(2) of the Clean Air Act, 42 U.S.C. 7409(d)(2); and for the Advisory Council on Clean Air Compliance Analysis, section 312(f) of the Clean Air Act, 42 U.S.C. 7612(f).

PURPOSE(S):

This system of records is being created to assist EPA with providing management and technical support to three scientific and technical advisory committees (the SAB, the Clean Air Scientific Advisory Committee, and the Advisory Council on Clean Air Compliance Analysis) that report to the EPA Administrator. The SAB Staff Office requests nominations of experts from the public wishing to nominate themselves or others for committees and panels providing advice; identifies experts to become Special Government Employees (SGEs) serving on advisory committees and panels; manages their personnel paperwork; ensures that SGEs comply with ethics training and financial disclosure requirements of the Ethics in Government Act; and coordinates experts' participation in approximately fifty advisory projects per year and approximately eighty meetings per year. The SAB Staff Office conducts these activities to provide the EPA Administrator with scientific advice from balanced committees of qualified experts on high priority science issues. The SAB Database of Scientific and Technical Experts assists the SAB Staff Office to achieve this goal in an efficient manner that protects the privacy of scientific experts.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS, AND THE PURPOSES OF SUCH USES:

The boundaries were chosen based on easy line-of-sight locations and generally represent all navigational waters. The area includes the municipal waters of Camden, Rockport, Rockland and portions of Owls Head.

There are marinas, yacht clubs and public landings/piers in the proposed area with a combination of mooring fields and dock space for the recreational and commercial vessels. Maine has certified that there are six pumpout facilities within the proposed area available to the boating public and the facilities are connected to the municipal sewage system. A list of the

facilities, locations, contact information, hours of operation, and water depth is provided at the end of this petition.

Maine has provided documentation indicating that the total vessel population is estimated to be 1151 in the proposed area. It is estimated that 813 of the total vessel population may have a Marine Sanitation Device (MSD) of some type.

The proposed area is identified as a High Value Wildlife Habitat by the U. S. Fish and Wildlife Service. The area constitutes almost 17 square miles of marine habitat, 450 acres of wetlands, and essential habitat for bald eagles. The

area is adjacent to and bordered by several State parks including the Clam Cove Scenic Area, and the Owls Head Regional Recreation Area. There is one large marina, a yacht club and public boating facilities in Camden, and a boatyard and a large City owned park and dock in Rockland, and three large marinas, two boat repair facilities, working fishing wharfs and a city waterfront operation, together serving roughly 1151 boats. This area is a popular destination for boaters due to its natural environmental diversity and would benefit from a No Discharge Area.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Submitted to the Office of Management and Budget for Review and Approval, Comments Requested

July 6, 2009.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, 44 U.S.C. 3501-3520. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before August 12, 2009. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, Office of Management and Budget, via fax at 202-395-5167 or via Internet at Nicholas.A.Fraser@omb.eop.gov and to Judith.B.Herman@fcc.gov, Federal Communications Commission, or an e-mail to PRA@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information, contact Judith B. Herman at 202-418-0214 or via the Internet at Judith.B.Herman@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0168.

Title: Section 43.43, Report of Proposed Changes in Depreciation Rates.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 24 respondents; 24 responses.

Estimated Time per Response: 250 hours.

Frequency of Response: On occasion reporting requirement and recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151, 152, 154, 161, 201-205, and 218-220.

Total Annual Burden: 6,000 hours.

Total Annual Cost: \$784,320.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality and respondents are not being asked to submit confidential information to the Commission. However, if the Commission requests respondents to submit information which they believe is confidential, respondents may request confidential treatment of such information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) after this 60 day comment period in order to obtain the full three year clearance from them. The Commission is requesting an extension (no change in the reporting and/or recordkeeping requirements) of this information collection. The Commission is reporting a significant decrease in the estimated number of respondents/responses since

this was last submitted to OMB in 2006. In 2006, the Commission reported 10 respondents/responses with 6,000 total annual burden hours. For this submission to the OMB, the number of respondents/responses increased to 24 with an estimated annual burden of 6,000 total annual burden hours and an increase in annual costs. The annual costs are now estimated to be \$785,320 (no costs were estimated in 2006). The reasons for the change in burden are thus:

(1) The estimated time per response was changed from 6,000 hours to 250 hours;

(2) A re-estimate of the number of respondents/responses from 10 to 24 respondents; and

(3) The annual costs have been added to include a \$32,680 filing fee per 47 CFR 1.1105.

43.43 establishes the reporting requirements for depreciation prescription purposes. Communication common carriers with annual operating revenues of \$138 million or more that the Commission has found to be dominant must file information specified in Section 43.43 before making any change in the depreciation rates applicable to their operating plant. Section 220 also allows the Commission, in its discretion, to prescribe the form of any and all accounts, records, and memoranda to be kept by carriers subject to the Act, including the accounts, records and memoranda of the movement of traffic, as well as receipts and expenditures of moneys. Carriers are required to file four summary exhibits along with the underlying data used to generate them, and must provide the depreciation factors (*i.e.*, life, salvage, curve shape, depreciation reserve) required to verify the calculation of the carrier's depreciation expenses and rates. Mid-sized carriers are no longer required to file theoretical reserve studies. Certain price cap incumbent LECs in certain instances may request a waiver of the depreciation prescription process.

Marlene H. Dortch,

Secretary,

Federal Communications Commission.
