

(residential or outpatient) or in drug treatment (if the women also use alcohol). Women in substance abuse treatment will be screened and those women that meet the above description will be provided four Motivational Interviewing (MI) sessions (related to alcohol use), plus one contraceptive counseling session. The goal is to help these women prevent an alcohol-exposed pregnancy by abstaining from alcohol and using contraceptive methods of their choice consistently and correctly.

At baseline, an assessment tool will be administered by the counselor to assess drinking, sexual activity, contraceptive use, and demographic information. At the end of the program, women are assessed on their alcohol consumption and contraceptive use in the past 30 days. At 6 months and 12 months after the end of the program, women are assessed on alcohol consumption and contraceptive use using the same core assessment tool used at baseline. All participating sites will maintain personal identification on

their clients for service delivery purposes but no such information will be transmitted to SAMHSA.

The data collection is designed to evaluate the implementation of Project CHOICES by measuring whether abstinence from alcohol is achieved and effective birth control practices are performed. Furthermore, the project will include process measures to assess whether and how the intervention was provided.

Proposed Information Collection Activity; Comment Request

Proposed Projects:

Title: Child Care and Development Fund Financial Report (ACF 696) for States and Territories.

OMB No.: 0970-0163.

Description: States and Territories use the Financial Report Form ACF-696 to report Child Care and Development Fund (CCDF) expenditures. Authority to collect and report this information is found in section 658G of the Child Care and Development Block Grant Act of 1990, as revised. In addition to the Program Reporting Requirements set forth in 45 CFR part 98, Subpart H, the regulations at 45 CFR 98.65(g) and 98.67(c)(1) authorize the Secretary to require financial reports as necessary.

The form provides specific data regarding claims and provides a mechanism for States to request Child Care grant awards and to certify the availability of State matching funds. Failure to collect this data would seriously compromise ACF's ability to monitor Child Care and Development Fund expenditures. This information is also used to estimate outlays and may be used to prepare ACF budget submissions to Congress.

The American Recovery and Reinvestment Act (ARRA) of 2009, (Pub. L. 111-5) provides an additional \$2 billion for the Child Care and Development Fund to help States, Territories, and Tribes provide child care assistance to low income working families. CCDF Program Instruction (CCDF-ACF-PI-2009-03) provided

guidance on ARRA spending requirements.

Section 1512 of the ARRA legislation requires recipients to report quarterly spending and performance data on the public Web site, "Recovery.gov." Federal agencies are required to collect ARRA expenditure data and performance data and these data must be clearly distinguishable from the regular CCDF (non-ARRA) funds. To ensure transparency and accountability, the ARRA authorizes Federal agencies and grantees to track and report separately on expenditures from funds made available by the stimulus bill. Office of Management and Budget (OMB) guidance implementing the ARRA legislation indicates that agencies requiring additional information for oversight should rely on existing authorities and reflect these requirements in their award terms and conditions as necessary, following existing procedures. Therefore, to capture ARRA expenditures, the ACF-696 has been modified (by the addition of a column) for reporting ARRA expenditure data. In addition, a new data element will ask States and Territories to estimate the number of child service months funded with ARRA dollars. The collection will not duplicate other information.

Respondents: States and Territories.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
ACF-696	56	4	5	1,120.

Estimated Total Annual Burden Hours: 1,120.

In compliance with the requirements of Section 506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Administration for Children and Families is soliciting public comment on the specific aspects of the information collection described above.
