Abstract: The Office of Indian Education Professional Development (OIE PD) Grants program wishes to implement (1) a Semi-Annual Participant Report (SAPR), (2) a Participant Follow-Up Protocol, and (3) an Employment Verification survey. OIE PD grantees will submit participant contact and project service information on the SAPR twice a year. The OIE PD Grants program staff will use the Participant Follow-Up Protocol to collect employment and continuing education information from IE PD participants who are not in an approved and active deferment once they have exited the program. IE PD participants will initiate contact with IE PD staff within 6 months of exiting the PD

program and every 6 months thereafter for the length of their service payback period to report their employment and continuing education information. IE PD participants working in a local educational agency enrolling 5 percent or more of American Indian/Alaska Native students will give the Employment Verification form to their principal or LEA representative to complete. The OIE PD grants program participants will submit employment verification forms to employers, starting upon employment and continuing every 6 months thereafter. The information collected through the SAPR, the Participant Follow-Up Protocol, and the Employment Verification Form is necessary to (1) assess the performance of the IE PD program on its Government Performance Results Act (GPRA) measures, (2) determine if IE PD participants are fulfilling the terms of their service payback requirements, and (3) provide project-monitoring and compliance information to IE PD Grants program staff.

Abstract: The U.S. Department of Education is in the process of benchmarking its K12 educational technology policies and practices against the policies and practices in 25 competitor nations. The purpose is to understand how U.S. educational technology practices compare to other competitor nations. Data collected through surveys and follow up telephone interviews will help fill in gaps in information about (a) What data competitor nations are collecting, (b) where there are gaps between available data and U.S. national priorities, and (c) international rankings and comparisons for selected indicators. Data analysis will result in country profiles that will detail country-specific information regarding selected indicators, summary and comparison of data across countries, and analysis of what additional information would need to be collected to address emerging U.S. policy priorities. Respondents will be representatives of ministries of education in the 25 selected countries.
