

Records

The Exchange proposes to amend existing Rule 4.11.04(c)(G) governing records so that it extends to members carrying customer accounts. Specifically, each member relying on the Exemption would be required to (i) retain, and would be required to undertake reasonable efforts to ensure that any non-member affiliate of the member or customer relying on the Exemption retains, a list of the options, securities and other instruments underlying each options position net delta calculation reported to the Exchange hereunder, and (ii) produce such information to the Exchange upon request.

Clarifying Minor Revisions to Existing Rule Text

The Exchange is taking this opportunity to propose certain minor changes to the existing text of Rule 4.11.04(c) to clarify that the affirmative obligations codified in connection with relying on the Exemption belong to members. For example, any written documentation required to be provided to the Exchange in connection with the Exemption must be provided by the member relying on the Exemption or provided by the member who carries the account of a non-member affiliate or customer relying on the Exemption. The Exchange states that all communications regarding reliance on the Exemption by non-member affiliates or customers will be had with the member carrying such accounts and not with such non-member affiliates or customers.

The Exchange will not implement a delta-based equity hedge exemption for customers until it provides a representation to the Office of Compliance Inspections and Examinations ("OCIE") that it can adequately surveil for such an exemption.⁹

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act¹⁰ and the rules and regulations thereunder and, in particular, the requirements of Section 6(b) of the Act.¹¹ Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)¹² requirements that the rules of an exchange be designed to promote just and equitable principles of trade, to prevent fraudulent and manipulative

acts, to remove impediments to and to perfect the mechanism for a free and open market and a national market system, and, in general, to protect investors and the public interest. The Exchange believes that extension of the Exemption from equity options and exercise limits to customers is appropriate in that it is based on a widely accepted risk management method used in options trading.

B. Self-Regulatory Organization's Statement on Burden on Competition

CBOE does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange neither solicited nor received comments on the proposal.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (a) By order approve such proposed rule change, or
- (b) Institute proceedings to determine whether the proposed rule change should be disapproved.
