

information in addition to the three items listed in the notice should be required. NABL, NAHEFFA and SIFMA provided comments on the items relating to identification of obligated persons and the date on which annual financial information is expected to be disseminated.

With respect to identification of obligated persons, NABL and SIFMA noted that only those obligated persons for whom financial or operating data is provided in the official statement are relevant. NABL suggested only requiring underwriters "to identify those persons expressly specified in the continuing disclosure undertaking who will be required to make continuing disclosure filings or to state that such persons will be determined by the functional descriptions contained in the continuing disclosure undertaking." SIFMA stated that a requirement for the underwriter to provide such information is "unnecessarily complicated since the official statement itself, which is on the portal, has a summary paragraph stating who will be filing continuing disclosure and where it will be filed."

The proposed rule change would require that underwriters provide the name of any obligated person (other than the issuer) that would be providing continuing disclosures pursuant to the continuing disclosure undertaking, rather than all obligated persons regardless of whether such obligated persons will be providing disclosure information. The MSRB believes that collecting the identity of obligated persons in a fielded manner that permits automated indexing and search functions is an important feature that would make the EMMA Web portal considerably more useful for users. Such indexed information would assist EMMA Web users in finding some or all of the offerings for a particular obligated person, thereby allowing the user to review the continuing disclosure undertakings that more fully spell out how the continuing disclosure obligations will be fulfilled.

With respect to the expected date of filing of annual financial information, NABL and SIFMA questioned the value of providing this information. NABL noted that the information is already provided in the official statement's description of the continuing disclosure undertaking and can become confusing if several obligated persons are required to file annual filings on different dates, while SIFMA noted that the information can be vague, often based on a stated period of time following the end of a fiscal year, and will become readily apparent based on the pattern of posting over time. NAHEFFA sought

clarification of the purpose for requiring this date and requested that the data entry be flexible enough to reflect a deadline measured from the end of a fiscal year or other milestone, rather than a date certain.

The MSRB believes that there is considerable value in providing the expected date of submission of annual financial information in a manner that is extracted from the official statement. The MSRB would require that such information be provided in the form of a specific month and day. This would permit investors and the general public to readily identify when such disclosures should become available from each issuer or obligated person expected to provide the annual filings. Issuers and obligated persons would be able to update the timing requirement, as well as the identity of any obligated persons, through EMMA as appropriate.

[Docket No. NHTSA-2009-0063]

Ferrari S.p.A and Ferrari North America, Inc.; Grant of Application for Extension of a Temporary Exemption From the Advanced Air Bag Requirements of FMVSS No. 208

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Grant of petition for extension of a temporary exemption from certain provisions of Federal Motor Vehicle Safety Standard (FMVSS) No. 208, *Occupant Crash Protection*.

SUMMARY: This notice grants the Ferrari S.p.A and Ferrari North America, Inc. application for extension of a temporary exemption from some requirements of FMVSS No. 208, *Occupant Crash Protection*. The exemption applies to the F430 vehicle line. In accordance with 49 CFR part 555, the basis for the grant is that compliance would cause substantial economic hardship to a low-volume manufacturer that has tried in good faith to comply with the standard, and the exemption would have a negligible impact on motor vehicle safety. The exemption is effective through August 31, 2009.
