

to 200 individuals per year of the orders Cetacea (all species) and Pinnipedia (with the exception of walrus) from yet to be determined locations outside the U.S. All samples will be imported for diagnostic testing to determine the causes of outbreaks or unusual natural mortalities, investigations into the ecology of diseases in free-ranging animals, or unexpected mortalities in captive populations. All biological specimens will originate from animals found deceased in nature, collected opportunistically during the animals' capture by other researchers possessing permits for such activities, or from specimens legally held in captivity outside the U.S.A. No live animals will be taken from the wild for research. The permit is issued for a period of five years.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), a final determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Issuance of this permit, as required by the ESA, was based on a finding that such permit: (1) Was applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.
