

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* State agencies, tribal governments, local governments, colleges and universities, non-profit organizations, and for-profit organizations. The purpose of the Recovery Act solicitation template is to provide a framework to develop program-specific announcements soliciting applications for funding. A program solicitation outlines the specifics of the funding program; describes requirements for eligibility; instructs an applicant on the necessary components of an application under a specific program (e.g., project activities and timeline, proposed budget); and provides registration dates, due dates, and instructions on how to apply within the designated application system.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond/reply:* It is estimated that information will be collected annually from 250 applicants, representing State agencies, tribal governments, local governments, colleges and universities, non-profit organizations, and for-profit organizations. Annual cost to the respondents is based on the number of hours involved in preparing and submitting a complete application package. Public reporting burden for this collection of information is estimated at up to 30 hours per application. The 30-hour estimate is based on the amount of time to prepare research and evaluation proposals, one of the most time intensive types of applications solicited by OJP. The estimate of burden hours is based on OJP's prior experience with the application submission process.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The estimated public burden associated with this collection is 7,500 hours.
