Title: NESHAP for Hydrochloric Acid Production (Renewal).

ICR Numbers: EPA ICR Number 2032.06, OMB Control Number 2060-0529.

ICR Status: This ICR is scheduled to expire on September 30, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for hydrochloric acid

production were proposed on September 18, 2001 (66 FR 48174), final rule on April 17, 2003 (68 FR 19076), amended on August 24, 2005 (70 FR 49530), and promulgated on April 7, 2006 (71 FR 17738). This subpart applies to each new, reconstructed, or existing affected major source at a hydrochloric acid (HCl) production facility.

In general, all NESHAP standards require one-time only initial notifications, compliance status reports, and performance tests by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction (SSM) in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP. Semiannual compliance reports are also required.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 541 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information either to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of hydrochloric acid production facilities.

Estimated Number of Respondents: 75.

Frequency of Response: Initially, occasionally and semiannually.

Estimated Total Annual Hour Burden: 94,104.

Estimated Total Annual Cost: \$8,647,612, including \$7,959,759 in annual labor costs, \$53,500 in total capital/startup costs, and \$634,353 in O&M costs.

Changes in the Estimates: There is no change in the total estimated burden hours currently identified in the OMB Inventory of Approved ICR Burdens.

Dated: July 20, 2009.

John Moses,

Director, Collection Strategies Division.

Title: NESHAP for the Wood Building Products Surface Coating Industry (Renewal).

ICR Numbers: EPA ICR Number 2034.04, OMB Control Number 2060-0510.

ICR Status: This ICR is scheduled to expire on September 30, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on

the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP), for the Wood Building Products Surface Coating Industry, published at 40 CFR part 63, subpart QQQQ, were proposed on June 21, 2002, and promulgated on May 28, 2003. These regulations apply to existing facilities and new facilities that perform surface coating of wood building products where the total Hazardous Air Pollutants (HAPs) emitted are greater than or equal to 10 tons per year of any one HAP, or where the total HAPs emitted are greater than or equal to 25 tons per year of any combination of HAPs, that use at least 4,170 liters (1,100 gallons) of coatings annually.

In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 109 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Wood building products surface coating facilities.

Estimated Number of Respondents: 232.

Frequency of Response: Initially, occasionally, and semiannually.
