Title: NESHAP for the Wood Building Products Surface Coating Industry (Renewal).

ICR Numbers: EPA ICR Number 2034.04, OMB Control Number 2060-0510.

ICR Status: This ICR is scheduled to expire on September 30, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on

the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP), for the Wood Building Products Surface Coating Industry, published at 40 CFR part 63, subpart QQQQ, were proposed on June 21, 2002, and promulgated on May 28, 2003. These regulations apply to existing facilities and new facilities that perform surface coating of wood building products where the total Hazardous Air Pollutants (HAPs) emitted are greater than or equal to 10 tons per year of any one HAP, or where the total HAPs emitted are greater than or equal to 25 tons per year of any combination of HAPs, that use at least 4,170 liters (1,100 gallons) of coatings annually.

In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 109 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Wood building products surface coating facilities.

Estimated Number of Respondents: 232.

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden: 75,771

Estimated Total Annual Cost: \$6,695,925, which includes \$6,417,525 in annual labor costs, \$278,400 in O&M costs, and no total capital/Startup costs.

Changes in the Estimates: There is a small change in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This change is due to a correction in rounding of the currently approved burden. The new burden is \$278,400, or \$400 in additional burden above the currently approved burden.

Dated: July 20, 2009.

John Moses,

Director, Collection Strategies Division.

303 and 308 of the Communications Act of 1934, as amended.

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Privacy Impact Assessment: No impact(s).

Needs and Uses: The Commission received OMB approval on December 29, 2008 under the emergency process procedures for a period of six months for the changes to FCC Form 340 that were necessary to accommodate applications by a DTV station for a DTS facility. The Commission now is requesting OMB approval for a period of three years for the requirements and changes to FCC Form 340.

In addition, the Commission is revising this information collection to eliminate the requirements that are no longer necessary because of the completion of the DTV transition on June 12, 2009. In particular, collections relating to the filing of applications for construction permits and broadcast licenses for analog TV stations are discontinued now that all full-power TV stations will broadcast only in digital. Therefore, with this submission the Commission is discontinuing FCC Form 302-TV now that all full-power TV stations will broadcast only in digital. The associated burdens and costs related to FCC Form 302-TV are removed from this collection.

Form 302-DTV is used by licensees and permittees of Digital TV ("DTV") broadcast stations to obtain a new or modified station license and/or to notify the Commission of certain changes in the licensed facilities of those stations. It may be used: (1) To cover an authorized construction permit (or auxiliary antenna), provided that the facilities have been constructed in compliance with the provisions and conditions specified on the construction permit; or (2) To implement modifications to existing licenses as permitted by 47 C.F.R. Sections 73.1675(c) or 73.1690(c).

FCC Form 340 is used by licensees and permittees to apply for authority to construct a new noncommercial educational ("NCE") FM and DTV broadcast station (including a DTS facility), or to make changes in the existing facilities of such a station. The FCC Form 340 is only used if the station will operate on a channel that is reserved exclusively for NCE use, or in the situation where applications for NCE stations on non-reserved channels are mutually exclusive only with one another.

Form 340's Newspaper Notice (third party disclosure) requirement; 47 CFR 73.3580. Form 340 also contains a third
