Background: For-hire Class I motor carriers of passengers (including interstate and intrastate)¹ are required to file Motor Carrier Annual and Quarterly Reports (Form MP-1) that provide financial and operating data (see 49 U.S.C. 14123; and implementing FMCSA regulations at 49 CFR part 369). The agency uses this information to assess the health of the industry and identify industry changes that may affect national transportation policy. The data also show company financial stability and traffic patterns. Motor carriers of passengers required to comply with the regulations are classified on the basis of their annual gross carrier operating revenues. Under the Financial & Operating Statistics (F&OS) program, the FMCSA collects balance sheet and income statement data along with information on tonnage, mileage, employees, transportation equipment, and other related data.

The data and information collected is made publicly available as prescribed in 49 CFR part 369. Class I motor carriers are required by 49 U.S.C. 14123 to file annual financial reports with the Secretary. The Secretary has exercised his discretion under section 14123 to also require Class I property carriers (including dual-property carriers), Class I household goods carriers and Class I passenger carriers to file quarterly reports.

Over the years, the regulations were formerly administered by the Interstate Commerce Commission (ICC), but the ICC Termination Act of 1995 (ICCTA) (Pub. L. 104-88, 109 Stat. 803 (Dec. 29, 1995); now codified at 49 U.S.C. 14123) abolished the ICC and transferred the responsibility for collecting and disseminating motor carrier financial information to the Secretary of Transportation (Secretary). On September 30, 1998, the Secretary delegated and transferred the authority

¹ For purposes of the Financial & Operating Statistics (F&OS) program, passenger carriers are classified into the following two groups; (1) Class I carriers are those having average annual gross transportation operating revenues (including interstate and intrastate) of \$5 million or more from passenger motor carrier operations after applying the revenue deflator formula as shown in the Note at 49 CFR 369.3; and (2) Class II passenger carriers are those having average annual gross transportation operating revenues (including interstate and intrastate) of less than \$5 million from passenger motor carrier operations after applying the revenue deflator formula as shown in the Note at 49 CFR 369.3. Only Class I carriers of passengers are required to file the Annual and Quarterly Report Form MP-1. Class II passenger carriers, however, must notify the agency when there is a change in their classification or their revenues exceed the Class II limit.
