Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purpose of the RERC program is to improve the effectiveness of services authorized under the Rehabilitation Act of 1973, as amended, by conducting advanced engineering research and development on innovative technologies that are designed to solve particular rehabilitation problems, or remove environmental barriers. RERCs also demonstrate and evaluate such technologies, facilitate service delivery system changes, stimulate the production and distribution of new technologies and equipment in the private sector, and provide training opportunities.

Additional information on the RERC program can be found at: http://www.ed.gov/rschstat/research/pubs/res-program.html#RERC.

Priorities: NIDRR has established three separate priorities for the three competitions announced in this notice. The three priorities are from the notice of final priorities (NFP) for the Disability and Rehabilitation Research Projects and Centers program, published elsewhere in this issue of the Federal Register.

Absolute Priorities: For FY 2009, these priorities are absolute priorities. Under 34 CFR 75.105(c)(3), for each competition (designated by CFDA number in the following chart), we consider only applications that meet the absolute priority designated for that competition.

These priorities are:

Absolute priority	Corresponding competition CFDA No.
Telerehabilitation	84.133E-1
