

FFDCA in response to a petition submitted to the Agency. The Office of Management and Budget (OMB) has exempted these types of actions from review under Executive Order 12866, entitled *Regulatory Planning and Review* (58 FR 51735, October 4, 1993). Because this final rule has been exempted from review under Executive Order 12866, this final rule is not subject to Executive Order 13211, entitled *Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use* (66 FR 28355, May 22, 2001) or Executive Order 13045, entitled *Protection of Children from Environmental Health Risks and Safety Risks* (62 FR 19885, April 23, 1997). This final rule does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.*, nor does it require any special considerations under Executive Order 12898, entitled *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations* (59 FR 7629, February 16, 1994).

Since tolerances and exemptions that are established on the basis of a petition under section 408(d) of FFDCA, such as the exemption in this final rule, do not require the issuance of a proposed rule, the requirements of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) do not apply.

This final rule directly regulates growers, food processors, food handlers, and food retailers, not States or tribes, nor does this action alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of section 408(n)(4) of FFDCA. As such, the Agency has determined that this action will not have a substantial direct effect on States or tribal governments, on the relationship between the national government and the States or tribal governments, or on the distribution of power and responsibilities among the various levels of government or between the Federal Government and Indian tribes. Thus, the Agency has determined that Executive Order 13132, entitled *Federalism* (64 FR 43255, August 10, 1999) and Executive Order 13175, entitled *Consultation and Coordination with Indian Tribal Governments* (65 FR 67249, November 9, 2000) do not apply to this final rule. In addition, this final rule does not impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) (Public Law 104-4).

This action does not involve any technical standards that would require

Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104-113, section 12(d) (15 U.S.C. 272 note).

IX. Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of this final rule in the **Federal Register**. This final rule is not a "major rule" as defined by 5 U.S.C. 804(2).

II. Petition for Tolerances

In the **Federal Register** of March 4, 2009 (74 FR 9397) (FRL-8401-8), EPA issued a notice pursuant to section 408(d)(3) of FFDCA, 21 U.S.C. 346a(d)(3), announcing the filing of a pesticide petition (PP 9E7517) by DowAgroSciences LLC, 9930 Zionsville Road, Indianapolis, IN 46268. The petition requested that 40 CFR 180.469 be amended by extending the expiration date of the time-limited tolerances for residues of the herbicide safener dichlormid; (acetamide, 2,2-dichloro-N,N-di-2-propenyl-)-(CAS Reg. No. 37764-25-3) in or on field corn (forage, grain, stover), pop corn (grain, stover), and sweet corn (forage, kernel plus cob with husks removed, stover) at 0.05 part per million (ppm) to December 31, 2010. That notice referenced a summary of the petition prepared by DowAgroSciences LLC, the petitioner, which is available

to the public in the docket, <http://www.regulations.gov>. There were no substantive comments received in response to the notice of filing.

III. Aggregate Risk Assessment and Determination of Safety

Section 408(b)(2)(A)(i) of FFDCA allows EPA to establish a tolerance (the legal limit for a pesticide chemical residue in or on a food) only if EPA determines that the tolerance is "safe." Section 408(b)(2)(A)(ii) of FFDCA defines "safe" to mean that "there is a reasonable certainty that no harm will result from aggregate exposure to the pesticide chemical residue, including all anticipated dietary exposures and all other exposures for which there is reliable information." This includes exposure through drinking water and in residential settings, but does not include occupational exposure. Section 408(b)(2)(C) of FFDCA requires EPA to give special consideration to exposure of infants and children to the pesticide chemical residue in establishing a tolerance and to "ensure that there is a reasonable certainty that no harm will result to infants and children from aggregate exposure to the pesticide chemical residue...."

Consistent with the factors specified in FFDCA section 408(b)(2)(D), EPA has reviewed the available scientific data and other relevant information in support of this action. EPA has sufficient data to assess the hazards of and to make a determination on aggregate exposure for the petitioned-for tolerances for residues of dichlormid; (acetamide, 2,2-dichloro-N,N-di-2-propenyl-)-(CAS Reg. No. 37764-25-3) in or on field corn (forage, grain, stover), pop corn (grain, stover), and sweet corn (forage, kernel plus cob with husks removed, stover) at 0.05 ppm. EPA's assessment of exposures and risks associated with re-establishing these tolerances follows.

In a Final Rule published in the **Federal Register** on March 27, 2000 (65 FR 16143) (FRL-6498-7), EPA established time-limited tolerances under 40 CFR 180.469 for residues of dichlormid in or on field corn (forage, grain, stover), and pop corn (grain, stover) at 0.05 ppm. On September 30, 2004, EPA published a final rule (69 FR 58285) (FRL-7680-8) amending 40 CFR 180.469 by establishing time-limited tolerances for residues of dichlormid in or on sweet corn (forage, kernel plus cob with husks removed, stover) at 0.05 ppm. In a Final Rule published in the **Federal Register** on December 28, 2005 (70 FR 76697) (FRL-7753-9), the Agency extended the 40 CFR 180.469 time-limited tolerances for residues of

dichlormid in or on field corn (forage, grain, stover), pop corn (grain, stover), and sweet corn (forage, kernel plus cob with husks removed, stover) at 0.05 ppm to December 31, 2008.

In June 2008 the Agency received additional information from the petitioner addressing the adequacy of the residue chemistry and toxicology databases to support permanent tolerances. In order to allow time for the Agency to review this additional information, the current time-limited tolerances in 40 CFR 180.469 for residues of dichlormid on field corn (forage, grain, stover), pop corn (grain, stover), and sweet corn (forage, kernel plus cob with husks removed, stover) at 0.05 ppm are being extended to December 31, 2010. EPA concluded in the Final Rules listed above in this Unit, for the field, pop, and sweet corn time-limited tolerances that all risks were below the Agency's level of concern and there was a reasonable certainty that no harm would result to the general population and to infants and children from aggregate exposure to residues of dichlormid on corn. Based on the data and information considered, the Agency reaffirms that adequate information for the extension of the time-limited tolerances will continue to meet the requirements of section 408(b)(2)(A)(i) of FFDCA and that extending the tolerances will not change the estimated aggregate risks resulting from the use of dichlormid, as discussed in Final Rules of March 27, 2000 (65 FR 16143) (FRL-6498-7) and September 30, 2004, (69 FR 58285) (FRL-7680-8). Refer to the above listed **Federal Register** documents for a detailed discussion of the aggregate risk assessments and determination of safety. EPA relies upon those risk assessments and the findings made in the **Federal Register** documents in support of this action.

Based on this information, EPA concludes that there is a reasonable certainty that no harm will result to the general population, or to infants and children from aggregate exposure to dichlormid residues.

IV. Conclusion

Therefore, the expiration/revocation dates of the time-limited tolerances under 40 CFR 180.469 are extended to December 31, 2010 for residues of dichlormid; (acetamide, 2,2-dichloro-N,N-di-2-propenyl)-(CAS Reg. No. 37764-25-3) in or on field corn (forage, grain, stover), pop corn (grain, stover), and sweet corn (forage, kernel plus cob with husks removed, stover) at 0.05 ppm.

V. Statutory and Executive Order Reviews

This final rule establishes tolerances under section 408(d) of FFDCA in response to a petition submitted to the Agency. The Office of Management and Budget (OMB) has exempted these types of actions from review under Executive Order 12866, entitled *Regulatory Planning and Review* (58 FR 51735, October 4, 1993). Because this final rule has been exempted from review under Executive Order 12866, this final rule is not subject to Executive Order 13211, entitled *Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use* (66 FR 28355, May 22, 2001) or Executive Order 13045, entitled *Protection of Children from Environmental Health Risks and Safety Risks* (62 FR 19885, April 23, 1997). This final rule does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.*, nor does it require any special considerations under Executive Order 12898, entitled *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations* (59 FR 7629, February 16, 1994).

Since tolerances and exemptions that are established on the basis of a petition under section 408(d) of FFDCA, such as the tolerance in this final rule, do not require the issuance of a proposed rule, the requirements of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) do not apply.

This final rule directly regulates growers, food processors, food handlers, and food retailers, not States or tribes, nor does this action alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of section 408(n)(4) of FFDCA. As such, the Agency has determined that this action will not have a substantial direct effect on States or tribal governments, on the relationship between the national government and the States or tribal governments, or on the distribution of power and responsibilities among the various levels of government or between the Federal Government and Indian tribes. Thus, the Agency has determined that Executive Order 13132, entitled *Federalism* (64 FR 43255, August 10, 1999) and Executive Order 13175, entitled *Consultation and Coordination with Indian Tribal Governments* (65 FR 67249, November 9, 2000) do not apply to this final rule. In addition, this final rule does not impose any enforceable duty or contain any unfunded mandate as described under Title II of the

Unfunded Mandates Reform Act of 1995 (UMRA) (Public Law 104-4).

This action does not involve any technical standards that would require Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104-113, section 12(d) (15 U.S.C. 272 note).

VI. Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of this final rule in the **Federal Register**. This final rule is not a "major rule" as defined by 5 U.S.C. 804(2).
