Title: Labeling of Sulfites in Alcoholic Beverages.

OMB Number: 1513-0084.

TTB Form/Recordkeeping Number: None.

Abstract: As mandated by law, and in accordance with our consumer

protection responsibilities, TTB requires label disclosure statements on all alcoholic beverage products released from U.S. bottling premises or customs custody that contain 10 parts per million or more of sulfites. Sulfating agents have been shown to produce allergic-type responses in humans, particularly asthmatics, and the presence of these ingredients in alcohol beverages may have serious health implications for those who are intolerant of sulfites. Disclosure of sulfites on labels of alcohol beverages will minimize their exposure to these ingredients.
