

periodically review and, if appropriate, revise the NAAQS based on the revised criteria.

Air quality criteria have been established for sulfur oxides (SO_x) and NAAQS have been established for sulfur dioxide (SO₂), an indicator for gaseous SO_x. Presently, EPA is in the process of reviewing the NAAQS for SO₂. As part of its review of the NAAQS, EPA prepared an assessment of exposures and health risks associated with ambient SO₂. A plan describing the proposed approaches to assessing exposures and risks was described in *Sulfur Dioxide Health Assessment Plan: Scope and Methods for Exposure and Risk Assessment*. This document was released for public review and comment in November 2007 and was the subject of a consultation with the Clean Air Scientific Advisory Committee (CASAC) on December 5–6, 2007. Comments received from that consultation were considered in developing a draft document, *Risk and Exposure Assessment to Support the Review of the SO₂ Primary National Ambient Air Quality Standard: First Draft*, which was released for public review and comment in July 2008 and was the subject of a CASAC review on July 30–31, 2008. Comments received from that review were considered in developing a second draft document, *Risk and Exposure Assessment to Support the Review of the SO₂ Primary National Ambient Air Quality Standard: Second Draft*, which was released for public review and comment in March 2009 and was the subject of a CASAC review on April 16–17, 2009. In preparing the final risk and exposure assessment report, EPA considered comments received from CASAC and the public at and subsequent to that meeting.

The *Risk and Exposure Assessment to Support the Review of the SO₂ Primary National Ambient Air Quality Standard: Final Report* being released at this time conveys the approaches taken to assess exposures to ambient SO₂ and to characterize associated health risks, and presents the results of those assessments. This document also contains a staff policy assessment that considers the health evidence presented in an EPA document, *Integrated Science Assessment for Oxides of Sulfur* (available at: http://www.epa.gov/ttn/naaqs/standards/so2/s_so2_cr_isa.html), and the exposure and risk characterization results, as they relate to the adequacy of the current SO₂ NAAQS and consideration of potential alternative primary SO₂ standards. The *Risk and Exposure Assessment to Support the Review of the SO₂ Primary National Ambient Air Quality Standard:*

Final Report will be available online at: http://www.epa.gov/ttn/naaqs/standards/so2/s_so2_cr_rea.html.

Dated: July 22, 2009.

Needs and Uses: On June 29, 2009, the Commission adopted a Report and Order, Amendment of Service and Eligibility Rules for FM Broadcast Translator Stations, MB Docket No. 07-172, FCC 09-59. In the Report and Order, the Commission adopted changes

to the FM translator rules that would allow AM stations to use authorized FM translator stations to rebroadcast the AM signal locally, retransmitting their AM programming as a "fill-in" service. The adopted cross-service translating rules limit FM translators to providing "fill-in" service only, specifically within the AM primary station's authorized service area. In addition, the Commission limited the cross-service rule changes to "currently authorized FM translators," that is, those translators with licenses or permit in effect as of May 1, 2009.

Consistent with actions taken by the Commission in the Report and Order, the following changes are made to Form 345: Section III of Form 345 includes a new certification concerning compliance with the AM station "fill-in" service requirements. Specifically, in the AM service, applicants certify that the coverage contour of the FM translator station is contained within the lesser of: (a) The 2 mV/m daytime contour of the AM primary station being rebroadcast, or (b) a 25-mile radius centered at the AM station's transmitter site. The instructions for Section III have been revised to assist applicants with completing the new question.

Filing of the FCC Form 345 is required when applying for authority for the assignment of license or permit, or for consent to transfer of control of a corporate licensee or permittee for an FM or TV translator station, or low power TV station.

OMB Control Number: 3060-0110.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in 154(i), 303, 307 and 308 of the Communications Act of 1934, as amended, and Section 204 of the Telecommunications Act of 1996.

Nature and Extent of Confidentiality: There is no need for confidentiality with this information collection.

Consistent with actions taken by the Commission in the Report and Order, the following changes are made to Form 303-S: Section V of Form 303-S, to be completed by FM and TV Translator and Low Power TV licensees only, includes a new certification concerning compliance with the AM station "fill-in" service requirements. The instructions for Section V have been revised to assist applicants with completing the new question.

FCC Form 303-S is used in applying for renewal of license for a commercial or noncommercial AM, FM or TV broadcast station and FM translator, TV translator or Low Power TV, and Low Power FM broadcast stations. It can also be used in seeking the joint renewal of licenses for an FM or TV translator station and its co-owned primary FM, AM, TV, or LPTV station.

Therefore, 47 CFR 74.1284 is one of the rules that was changed as a result of the Commission adopting FCC 09–59. 47 CFR 74.1284 requires that the licensee of an FM translator station obtain prior consent to rebroadcast programs of any broadcast station or other FM translator. The licensee of the FM translator station must notify the Commission of the call letters of each station rebroadcast and must certify that written consent has been received from the licensee of that station.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

July 21, 2009.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, 44 U.S.C. 3501–3520. No person shall be subject to any penalty for failing to comply with a collection of information

subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before September 28, 2009. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, Office of Management and Budget, via fax at 202–395–5167 or via Internet at *Nicholas.A.Fraser@omb.eop.gov* and to *Judith-B.Herman@fcc.gov*, Federal Communications Commission, or an e-mail to *PRA@fcc.gov*.

Number of Respondents: 90 respondents; 90 responses.

Estimated Time per Response: 5 hours.

Frequency of Response: On occasion requirement, and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. Sections 151, 154(i), 154(j), 160, 161, 201–205, 214, 218, 403 and 571.

Total Annual Burden: 450 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) after this 60 day comment period

in order to obtain the full three year clearance from them. The Commission is requesting approval of a revision of this information collection. The Commission is reporting an increase of 45 respondents/responses and therefore, the total annual burden has increased by 225 total annual hours. In a Report and Order, FCC 09–40, *IP-Enabled Services* (“VoIP Discontinuance Order”), released on May 13, 2009, the Commission modified Part 63 to extend to providers of interconnected Voice over Internet Protocol (VoIP) service the discontinuance obligations that apply to domestic non-dominant telecommunications carriers under Section 214 of the Communications Act of 1934, as amended. Accordingly, the Commission found that before an interconnected VoIP provider may discontinue, reduce, or impair service, it must comply with the streamlined discontinuance requirements for non-dominant providers under Part 63 of the Commission's rules, including the requirements to provide written notice to all affected customers, notify relevant state authorities, and file an application with the Commission for authorization of the planned action. In general, providers of facilities-based interconnected VoIP services and “over-the-top” interconnected VoIP services are subject to the rules in the VoIP Discontinuance Order. However, the Commission found that it made more sense to treat providers of interconnected VoIP services that are mobile in the same way as Commercial Mobile Radio Service (CMRS) providers, which are not subject to the Commission's Section 214 discontinuance obligations.
