

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 101****Technical Amendments Concerning Amateur Rocket Activities**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; technical amendment.

SUMMARY: The FAA is making several editorial changes to the amateur rocket regulations. The intent of this action is to ensure the regulations are clear and accurate.

DATES: This amendment is effective July 31, 2009.

FOR FURTHER INFORMATION CONTACT: Charles P. Brinkman, Licensing and Safety Division (AST-200), Commercial Space Transportation, Federal Aviation Administration, 800 Independence Avenue, Washington, DC 20591, telephone (202) 267-7715, e-mail *Phil.Brinkman@faa.gov*.

SUPPLEMENTARY INFORMATION:**Background**

On Monday, July 6, 2009 (74 FR 31842), the FAA published a correction document to the final rule "Requirements for Amateur Rocket Activities". The final rule published December 4, 2008 (73 FR 73768). During the review process, we determined that additional minor amendments are needed in part 101 that could not be addressed in a correction document.

The 2008 final rule added §§ 101.25 and 101.26 relating to Class 2 and Class 3 Rockets, respectively. However, to avoid redundancy, the FAA is now moving the requirements of § 101.26 into § 101.25, and revising the section title to reflect the change. Combining the two sections provides the reader easy access to all information relating to both Class 2 and Class 3 Rockets operating limitations.

Additionally, the words "unmanned rockets" are changed to "amateur rockets" in the titles of part 101 and subpart C and in §§ 101.1(a)(3), 101.5, and 101.7 for accuracy and clarity.

Technical Amendment

This technical amendment merely moves an existing section to clarify regulations and revises the part, subpart, and section headings for clarity. There are no other changes to the existing regulatory text.

Justification for Immediate Adoption

Because this action moves an existing section to an existing subpart, the FAA finds that notice and public comment under 5 U.S.C. 553(d) is unnecessary. For the same reason, the FAA finds good cause exists under 5 U.S.C. 553(d) for making this rule effective upon publication.
