

managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, environmental education and interpretation.

We initiated the CCP/EA for the Klamath Marsh National Wildlife Refuge in February 2007. At that time and throughout the process, we requested, considered, and incorporated public scoping comments in numerous ways. Our public outreach has included a **Federal Register** notice of intent published on January 29, 2007, agency and Tribal scoping meetings, two public workshops, planning updates, and a CCP Web page. We received over 180 scoping comments during the 60-day public comment period.

Background

Klamath Marsh was established in 1958 and is located in south central Oregon on the east slope of the Cascade Mountain Range along the Williamson River. The Service owns approximately 40,960 acres within the 49,583-acre acquisition boundary. The Refuge protects one of the largest remaining natural freshwater marshes on the west coast. Other important habitats on the refuge include sedge meadow, grassland, riverine, riparian scrub, and ponderosa pine forest. The refuge protects habitat for a variety of unique species including greater sandhill cranes, yellow rails, Oregon spotted frogs, red-naped sapsuckers, pygmy nuthatches, bald eagles, beaver, and red band trout. The entire Refuge is located within the former reservation of the Klamath Tribes.

Alternatives

The Draft CCP/EA identifies and evaluates three alternatives for managing Klamath Marsh National Wildlife Refuge for the next 15 years. The alternative that appears to best meet the Refuge purposes is identified as the preferred alternative. The preferred alternative is identified based on the analysis presented in the Draft CCP/EA, which may be modified following the completion of the public comment period based on comments received from other agencies, Tribal

governments, non-governmental organizations, or individuals.

Under Alternative A, the no action alternative, we would continue to manage the Refuge as we have in the recent past. No major changes in habitat management would occur. The existing wildlife observation, photography, environmental education, and interpretation programs would remain unchanged.

Under Alternative B, (preferred alternative), the Service would restore the portion of the Williamson River and Big Spring Creek on the Refuge; substantially improve management of emergent marsh, meadows, ponderosa pine forest and aspen to increase habitat value for migratory birds and other wildlife; improve and expand visitor services by developing new trails, interpretive exhibits, an environmental education program, and a visitor contact station; maintain existing hunting and fishing programs with minor modifications; increase cultural resources protection; and recommend no units for wilderness designation. The Service would also revise and update the MOU with the Klamath Tribes regarding subsistence hunting and gathering.

Under Alternative C, the Service would restore the portions of the Williamson River and Big Springs Creek on the Refuge; improve management of emergent marsh, meadows, ponderosa pine forest and aspen using a more limited tool set (fire only for non-forested areas); minimally expand opportunities for non-consumptive public uses; eliminate public hunting; increase cultural resource protection; and recommend 11,165 acres for wilderness designation. The Service would also revise and update the MOU with the Tribes regarding subsistence hunting and gathering.

Public Meetings

The locations, dates, and times of public meetings will be listed in a planning update distributed to the project mailing list and posted on the Refuge Web site at <http://www.fws.gov/klamathbasinrefuges/KlamathMarshCCP/kmarshccp.html>.

Review and Comment

Copies of the Draft CCP/EA may be obtained by writing to the U.S. Fish and Wildlife Service, Attn: Mark Pelz, CA/NV Refuge Planning Office, 2800 Cottage Way, W-1832, Sacramento, CA 95825-1846. Copies of the Draft CCP/EA may be viewed at this address or at the Klamath National Wildlife Refuge, HC 63 Box 303, Chiloquin, OR 97624. The Draft CCP/EA will also be available for

viewing and downloading online at: <http://www.fws.gov/klamathbasinrefuges/KlamathMarshCCP/kmarshccp.html>.

Comments on the Draft CCP/EA should be addressed to: Mark Pelz, Chief, Refuge Planning, 2800 Cottage Way, W-1832, Sacramento, CA 95825-1846. Comments may also be faxed to (916) 414-6497 or if you choose to submit comments via electronic mail, submit them to the following address: fw8plancomments@fws.gov.

At the end of the review and comment period for this Draft CCP/EA, comments will be analyzed by the Service and addressed in the Final CCP/EA. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Quarterly Status Report of Water Service, Repayment, and Other Water-Related Contract Negotiations

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice.

SUMMARY: Notice is hereby given of contractual actions that have been proposed to the Bureau of Reclamation and are new, modified, discontinued, or completed since the last publication of this notice on June 24, 2009. This notice is one of a variety of means used to inform the public about proposed contractual actions for capital recovery and management of project resources and facilities consistent with section 9(f) of the Reclamation Project Act of 1939. Additional announcements of individual contract actions may be published in the **Federal Register** and in newspapers of general circulation in the areas determined by Reclamation to be affected by the proposed action.

ADDRESSES: The identity of the approving officer and other information

pertaining to a specific contract proposal may be obtained by calling or writing the appropriate regional office at the address and telephone number given for each region in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT:

Michelle Kelly, Water and Environmental Resources Office, Bureau of Reclamation, PO Box 25007, Denver, Colorado 80225-0007; telephone 303-445-2888.

SUPPLEMENTARY INFORMATION: Consistent with section 9(f) of the Reclamation Project Act of 1939 and the rules and regulations published in 52 FR 11954, April 13, 1987 (43 CFR 426.22), Reclamation will publish notice of proposed or amendatory contract actions for any contract for the delivery of project water for authorized uses in newspapers of general circulation in the affected area at least 60 days prior to contract execution. Announcements may be in the form of news releases, legal notices, official letters, memorandums, or other forms of written material. Meetings, workshops, and/or hearings may also be used, as appropriate, to provide local publicity. The public participation procedures do not apply to proposed contracts for the sale of surplus or interim irrigation water for a term of 1 year or less. Either of the contracting parties may invite the public to observe contract proceedings. All public participation procedures will be coordinated with those involved in complying with the National Environmental Policy Act. Pursuant to the "Final Revised Public Participation Procedures" for water resource-related contract negotiations, published in 47 FR 7763, February 22, 1982, a tabulation is provided of all proposed contractual actions in each of the five Reclamation regions. When contract negotiations are completed, and prior to execution, each proposed contract form must be approved by the Secretary of the Interior, or pursuant to delegated or redelegated authority, the Commissioner of Reclamation or one of the regional directors. In some instances, congressional review and approval of a report, water rate, or other terms and conditions of the contract may be involved.

Public participation in and receipt of comments on contract proposals will be facilitated by adherence to the following procedures:

1. Only persons authorized to act on behalf of the contracting entities may negotiate the terms and conditions of a specific contract proposal.

2. Advance notice of meetings or hearings will be furnished to those

parties that have made a timely written request for such notice to the appropriate regional or project office of Reclamation.

3. Written correspondence regarding proposed contracts may be made available to the general public pursuant to the terms and procedures of the Freedom of Information Act, as amended.

4. Written comments on a proposed contract or contract action must be submitted to the appropriate regional officials at the locations and within the time limits set forth in the advance public notices.

5. All written comments received and testimony presented at any public hearings will be reviewed and summarized by the appropriate regional office for use by the contract approving authority.

6. Copies of specific proposed contracts may be obtained from the appropriate regional director or his designated public contact as they become available for review and comment.

7. In the event modifications are made in the form of a proposed contract, the appropriate regional director shall determine whether republication of the notice and/or extension of the comment period is necessary.

Factors considered in making such a determination shall include, but are not limited to (i) the significance of the modification, and (ii) the degree of public interest which has been expressed over the course of the negotiations. At a minimum, the regional director shall furnish revised contracts to all parties who requested the contract in response to the initial public notice.
