

when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

*Abstract:* EPA's Design for the Environment (DfE) Formulator Product Recognition Program formally recognizes safer products where all ingredients have an environmental and human health profile showing that they are the safest in their functional use class. Under the encouragement of this program, leading companies have made great progress in developing safer, highly effective chemical products. Since the program's inception in 1997, formulators have used the program as a portal to OPPT's unique chemical expertise, information resources, and guidance on greener chemistry. DfE Formulator partners enjoy Agency recognition, including the use of the DfE logo on products with the safest possible formulations. In the future, EPA expects much greater program participation due to rising demand for safer products. This information collection enables EPA to accommodate participation by more than nine formulators each year and to enhance program transparency.

Information collection activities associated with this program will assist the Agency in meeting the goals of the Pollution Prevention Act (PPA) by providing resources and recognition for businesses committed to promoting and using safer chemical products. In turn, the program will help businesses meet corporate sustainability goals by providing the means to, and an objective measure of, environmental stewardship. Investment analysts and advisers seek these types of measures in evaluating a corporation's sustainability profile and investment worthiness. Formulator Program partnership is an important impetus for prioritizing and completing the transition to safer chemical products. The Formulator Program is also needed to promote greater use of safer chemical products by companies unaware of the benefits of such a change.

EPA has tailored its request for information, and especially the Formulator Product Recognition Program application forms, to ensure that the Agency requests only that information essential to verify applicants' eligibility for recognition. Responses to the collection of information are voluntary. Respondents may claim all or part of a notice

confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

*Burden Statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to 22 hours per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

*Respondents/Affected Entities:* Entities potentially affected by this action are companies that formulate end-use, for-sale chemical products.

*Frequency of Collection:* On occasion.

*Estimated Average Number of Responses for Each Respondent:* 1.

*Estimated No. of Respondents:* 32.

*Estimated Total Annual Burden on Respondents:* 691 hours.

*Estimated Total Annual Costs:* \$815,473 (including \$382,800 in M&O costs).

*Changes in Burden Estimates:* This is a new ICR. This estimated burden for this new ICR is estimated to be 691 hours and is a program change.

## **ENVIRONMENTAL PROTECTION AGENCY**

**[FRL-8940-4]**

### **EPA Science Advisory Board Staff Office; Notification of Two Public Teleconferences of the Chartered Science Advisory Board: Additional Information**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In a **Federal Register** notice dated July 15, 2009, the EPA Science Advisory Board (SAB) Staff Office announced a public teleconference on August 28, 2009 for a chartered SAB quality review of its draft report on the Agency's Expert Elicitation White Paper. That teleconference will occur as announced, but will include the addition of a briefing on the SAB Integrated Nitrogen Committee draft report. The briefing will provide information in preparation for a future quality review of the Integrated Nitrogen Committee report to be announced in a future **Federal Register** notice. This corrected notice announces the addition of the Integrated Nitrogen Committee.

**DATES:** The public teleconference date will be Friday, August 28, 2009 from 2 p.m. to 3:30 p.m. (all times are Eastern Time).

**FOR FURTHER INFORMATION CONTACT:** Mr. Thomas Miller, Designated Federal Officer (DFO), EPA Science Advisory Board (1400F), (202) 343-9982.

**SUPPLEMENTARY INFORMATION:** The EPA published a document in the **Federal Register** notice dated July 15, 2009, FR Doc. E9-16842, on pages 34348-34349, the EPA Science Advisory Board (SAB) Staff Office announced a public teleconference on August 28, 2009 for a chartered SAB quality review of its draft report on the Agency's Expert Elicitation White Paper. Background (c) as follows is being added for discussion at the meeting.

(c) *Briefing To Prepare for the Quality Review of the SAB's Draft Integrated Nitrogen Research Report:* During this teleconference, the SAB will also receive a briefing to help Board members prepare for a future quality review of a draft SAB Integrated Nitrogen Committee draft report. The SAB quality review will occur at a future public meeting or teleconference yet to be announced. The briefing will summarize the Committee's original study on reactive nitrogen. Reactive nitrogen, a form of nitrogen consisting mainly of ammonium and nitrate, is "fixed" by natural or human-driven processes or recycled from decaying organic matter. Increasing quantities of reactive nitrogen released by human activities, such as the production and use of synthetic fertilizers, burning of fossil fuel, and planting of nitrogen-fixing crops currently surpasses the amount of nitrogen fixed by natural processes (e.g., microbial activities, wildfire). Adverse environmental effects may occur when reactive nitrogen occurs in amounts that exceed what the ecosystem can normally use or recycle. Adverse effects may include

degradation of air and water quality, harmful algae blooms, hypoxia, fish kills, loss of drinking water supplies, loss of biodiversity, forest declines, and human health effects.

The SAB Integrated Nitrogen Committee undertook this study to assess linkages among the environmental effects of reactive nitrogen and to explore their implications for nitrogen research and risk management. The study recommends a more integrated approach to reactive nitrogen research and identifies opportunities for integrated approaches for nitrogen management.

Information about the work of the SAB Integrated Nitrogen Committee is available on the SAB Web site at [http://yosemite.epa.gov/sab/sabproduct.nsf/yosemistr\\_activites/Nitrogen%20Project?OpenDocument](http://yosemite.epa.gov/sab/sabproduct.nsf/yosemistr_activites/Nitrogen%20Project?OpenDocument).

Dated: July 30, 2009.

## FEDERAL RESERVE SYSTEM

### Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR Part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The applications also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States.

Additional information on all bank holding companies may be obtained from the National Information Center website at [www.ffiec.gov/nic/](http://www.ffiec.gov/nic/).

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than August 28, 2009.

**A. Federal Reserve Bank of New York** (Ivan Hurwitz, Bank Applications Officer) 33 Liberty Street, New York, New York 10045-0001:

1. *The Adirondack Trust Company Employee Stock Ownership Trust*, Saratoga Springs, New York; to acquire an additional 25 voting shares of 473 Broadway Holding Corporation, and thereby indirectly acquire an additional 1,000 voting shares of The Adirondack Trust Company, both of Saratoga Springs, New York.

**B. Federal Reserve Bank of St. Louis** (Glenda Wilson, Community Affairs Officer) P.O. Box 442, St. Louis, Missouri 63166-2034:

1. *Southern Bancorp, Inc.*, Arkadelphia, Arkansas; to merge with First Delta Bankshares, Inc., Blytheville, Arkansas, and thereby indirectly acquire Bank of Trumann, Trumann, Arkansas, and First National Bank in Blytheville, Blytheville, Arkansas.

**C. Federal Reserve Bank of San Francisco** (Kenneth Binning, Vice President, Applications and Enforcement) 101 Market Street, San Francisco, California 94105-1579:

1. *Mitsubishi UFJ Financial Group, Inc.*, *The Bank of Tokyo-Mitsubishi UFJ, Ltd.*, both of Tokyo, Japan, and UnionBanCal Corporation, San Francisco, California; to acquire First State Bank-Winnie, Winnie, Texas, and simultaneously merge it with and into Union Bank, National Association, San Francisco, California.

Board of Governors of the Federal Reserve System, July 30, 2009.

**Robert deV. Frierson,**

*Deputy Secretary of the Board.*

## FEDERAL MARITIME COMMISSION

### Notice of Agreements Filed

The Commission hereby gives notice of the filing of the following agreements under the Shipping Act of 1984. Interested parties may submit comments on the agreements to the Secretary, Federal Maritime Commission, Washington, DC 20573, within ten days of the date this notice appears in the **Federal Register**. Copies of the agreements are available through the Commission's website ([www.fmc.gov](http://www.fmc.gov)) or by contacting the Office of Agreements at (202)-523-5793 or [tradeanalysis@fmc.gov](mailto:tradeanalysis@fmc.gov).
