

Registration Number 264–1051) was approved on September 24, 2008, for control of insects on several agricultural crops and Christmas tree plantations. The application for Ultor (EPA Registration Number 264–1065) was approved on December 16, 2008, for control of insects on several agricultural crops and Christmas tree plantations.

The Agency approved the applications after considering all required data on risks associated with the proposed use of spirotetramat, and information on social, economic, and environmental benefits to be derived from use. Specifically, the Agency considered the nature of the chemical and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of spirotetramat when used in accordance with widespread and commonly recognized practice, will not generally cause unreasonable adverse effects to the environment.

B. FFDCA Tolerances

Along with the applications for registration of Spirotetramat Technical, Movento 240 SC Insecticide, and Movento 150 OD Insecticide filed on October 10, 2006, Bayer CropScience also filed a petition under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, to establish tolerances for residues of spirotetramat in or on the raw agricultural commodities: Citrus (Crop Group 10); cucurbit vegetables (Crop Group 9); fruiting vegetables (Crop Group 8); grape (Crop Subgroup 13F); hops; leafy *Brassica* vegetables (Crop Group 5); leafy non-*Brassica* vegetables (Crop Group 4); pome fruit (Crop Group 11); potato and other tuberous and corm vegetables (Crop Subgroup 1C); stone fruit (Crop Group 12); tree nuts (Crop Group 14); import tolerances on onions and strawberries; milk; meat, fat; and meat byproducts of cattle, goat, hog, sheep, and horse.

EPA issued a notice pursuant to section 408(d)(3) of FFDCA, 21 U.S.C. 346a(d)(3), in the **Federal Register** issue of July 25, 2007 (72 FR 40877) (FRL–8137–1) announcing the filing of this petition. EPA also issued a final rule establishing tolerances for spirotetramat in the **Federal Register** issue of July 9, 2008 (73 FR 39251) (FRL–8367–1).

III. What Action is the Agency Taking?

Although the Agency solicited comments on the application for a tolerance under FFDCA, it did not do so regarding the applications for

registration under FIFRA. Therefore, EPA is now seeking comment on the registrations for the spirotetramat technical and end-use products, issued under section 3 of FIFRA. After consideration of all comments received, the Agency will take appropriate action based on that consideration and issue another **Federal Register** notice responding to comments received.

List of Subjects

Environmental protection, Chemicals, Pests and pesticides.

Dated: July 30, 2009.

Lois Rossi,

Director, Registration Division, Office of Pesticide Programs.
