AGENCY: National Agricultural Statistics Service.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention the National Agricultural Statistics Service (NASS) to request revision and extension of a currently approved information collection, the Cold Storage Survey. Revision to burden hours will be needed due to changes in the size of the target population, expected increases in response rates, and modes of data collection. The entire target population for cold storage operators will be contacted for this data on a monthly basis. Fruit storage operations are contacted on a seasonal basis. The capacity survey is conducted once every other year. These surveys are voluntary, except for operations that store certain manufactured dairy products that are required by Public Law No. 106-532 and 107-171 to respond.

SUPPLEMENTARY INFORMATION:

Title: Cold Storage Survey.
OMB Control Number: 0535-0001.
Expiration Date of Approval: December 31, 2009.

Type of Request: To revise and extend a currently approved information collection for a period of three years.

Abstract: The primary objective of the National Agricultural Statistics Service (NASS) is to collect, prepare and issue State and national estimates of crop and livestock production, prices, and disposition; as well as economic statistics, environmental statistics related to agriculture and also to conduct the Census of Agriculture.

The monthly Cold Storage Survey provides information on national supplies of food commodities in refrigerated storage facilities. A biennial survey of refrigerated warehouse capacity is also conducted to provide a benchmark of the capacity available for refrigerated storage of the nation's food supply. Information on stocks of food commodities facilitates proper price discovery and orderly marketing, processing, and distribution of agricultural products.

Authority: These data will be collected under authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by

respondents. This notice is submitted in accordance with the Paperwork Reduction Act of 1995, (Pub. L. 104-13) and Office of Management and Budget regulations at 5 CFR part 1320 (60 FR 44978, August 29, 1985). NASS also complies with OMB Implementation Guidance, "Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA)," **Federal Register**, Vol. 72, No. 115, June 15, 2007, p. 33376.

Estimate of Burden: Public reporting burden for this information collection is based on 5 individual surveys with expected responses of 10-30 minutes. The Refrigerated Capacity Survey is conducted once every 2 years, the other surveys are conducted 8-12 times per year.

Respondents: Refrigerated storage facilities.

Estimated Number of Respondents: 3,000.

Estimated Total Annual Burden on Respondents: With an estimated response rate of approximately 80%, we estimate the burden to be 7,600 hours. Copies of this information collection and related instructions can be obtained without charge from David Hancock, NASS Clearance Officer, at (202) 690-2388.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.
