

("NRSRO") and provided authority for the Securities and Exchange Commission ("Commission") to implement registration, recordkeeping, financial reporting, and oversight rules with respect to registered credit rating agencies. The regulations implemented by the Commission pursuant to this mandate include Securities Exchange Act of 1934 ("Exchange Act") Rule 17g-2,² which requires an NRSRO to make and retain certain records relating to its business and to retain certain other business records made in the normal course of business operations.

On February 2, 2009, the Commission adopted amendments to its NRSRO rules imposing additional requirements on NRSROs in order to address concerns about the integrity of their credit rating procedures and methodologies.³ Among other things, the rule amendments added new paragraphs (a)(8) and (d) to Rule 17g-2. New paragraph (a)(8) of Rule 17g-2 requires an NRSRO to make and retain a record for each outstanding credit rating it maintains showing all rating actions (initial rating, upgrades, downgrades, placements on watch for upgrade or downgrade, and withdrawals) "identified by the name of the rated security or obligor and, if applicable, the CUSIP of the rated security or the Central Index Key (CIK) number of the rated obligor."⁴ New paragraph (d) of Rule 17g-2 requires an NRSRO to make publicly available, on a six-month delayed basis, the ratings histories for a random sample of 10% of the credit ratings paid for by the obligor being rated or by the issuer, underwriter, or sponsor of the security being rated ("issuer-paid credit ratings") pursuant to paragraph (a)(8) of Rule 17g-2 for each class of credit rating for which the NRSRO is registered and has issued 500 or more issuer-paid credit ratings.⁵

Paragraph (d) of Rule 17g-2 further requires that this information be made public on the NRSRO's corporate Internet Web site in eXtensible Business Reporting Language ("XBRL") format.⁶ The rule provides that in preparing the XBRL disclosure, an NRSRO must use the List of XBRL Tags for NRSROs as specified on the Commission's Web site.⁷ The Commission established a

compliance date of August 10, 2009 for this provision.

The XBRL tags are not yet available. Therefore, the Commission issued a Notice on August 5, 2009 that an NRSRO subject to the disclosure provisions of Rule 17g-2(d) can satisfy the requirement to make publicly available ratings history information in an XBRL format by using an XBRL format or any other machine readable format until such time as the Commission provides further notice.⁸

As noted above, the required rating actions information includes, if applicable, the CUSIP of each rated security and the CIK number of each rated obligor. Although CIK numbers are available free of charge on the Commission's Web site, CUSIPs are owned and distributed by private parties.

Subsequent to the issuance of the August 5, 2009 Notice, several NRSROs have notified Commission staff that, despite their efforts, they have not been able to resolve certain issues with the managers of the CUSIP program. The Commission believes, however, that users of credit ratings would benefit from having ratings action information available by the August 10, 2009 implementation date for Rule 17g-2(d), even if CUSIP numbers are not included for a limited time. We note that identifying information, such as the name of the security, will be included.

For these reasons, the Commission finds that providing NRSROs a partial temporary exemption from Rule 17g-2(d) (incorporating the provisions of Rule 17g-2(a)(8)) is necessary and appropriate in the public interest and is consistent with the protection of investors.⁹ Therefore, the Commission is providing NRSROs with a 30-day exemption from the requirement in Rule 17g-2(d) (incorporating the provisions of Rule 17g-2(a)(8)) that the CUSIP for each rated security be included with the ratings action information.

II. Conclusion

Accordingly, pursuant to Section 36 of the Exchange Act,

It is hereby ordered that NRSROs are temporarily exempt from the

requirement in Rule 17g-2(d) (incorporating the provisions of Rule 17g-2(a)(8)) that the CUSIP for each rated security be included with the ratings action information for thirty days, until September 9, 2009.

By the Commission.

Elizabeth M. Murphy,
Secretary.

Federal Aviation Administration

Agency Information Collection Activity Seeking OMB Approval

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice.

SUMMARY: The FAA invites public comments about our intention to request the Office of Management and Budget's (OMB) revision of a current information collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on June 5, 2009, 74 FR 27058-27059. Wildlife strike data are collected to develop standards and monitor hazards to aviation. Data identify wildlife strike control requirements and provide in-service data on aircraft component failure.

DATES: Please submit comments by September 14, 2009.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to the attention of the Desk Officer, Department of Transportation/FAA, and sent via electronic mail to oir_submission@omb.eop.gov, or faxed to (202) 395-6974, or mailed to the Office of Information and Regulatory

Affairs, Office of Management and Budget, Docket Library, Room 10102, 725 17th Street, NW., Washington, DC 20503.

SUPPLEMENTARY INFORMATION:

Federal Aviation Administration (FAA)

Title: Bird/Other Wildlife Strike Report.

Type of Request: Revision of a currently approved collection.

OMB Control Number: 2120-0045.

Forms(s): Form 5200-7.

Affected Public: An estimated 7,666 Respondents.

Frequency: This information is collected on occasion.

Estimated Average Burden per Response: Approximately 5 minutes per response.

Estimated Annual Burden Hours: An estimated 613 hours annually.

Abstract: Wildlife strike data are collected to develop standards and monitor hazards to aviation. Data identify wildlife strike control requirements and provide in-service data on aircraft component failure. The FAA form 5200-7, Bird/Other Wildlife Strike Report, is most often completed by the pilot in charge of an aircraft involved in a wildlife collision or by Air Traffic Control Tower personnel, or other airline or airport personnel who have knowledge of the incident.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimates of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued in Washington, DC, on August 7, 2009.

Surface Transportation Board

Indexing the Annual Operating Revenues of Railroads

The Surface Transportation Board (STB) is publishing the annual inflation-adjusted index factors for 2008. These factors are used by the railroads to adjust their gross annual operating revenues for classification purposes. This indexing methodology insures that railroads are classified based on real business expansion and not from the affects of inflation. Classification is important because it determines the extent to which individual railroads must comply with STB reporting requirements.

The STB's annual inflation-adjusted factors are based on the annual average Railroad's Freight Price Index which is developed by the Bureau of Labor Statistics (BLS). The STB's deflator factor is used to deflate revenues for comparison with established revenue thresholds.

The base year for railroads is 1991. The inflation index factors are presented as follows:

STB RAILROAD INFLATION-ADJUSTED INDEX AND DEFLATOR FACTOR TABLE

Year	Index	Deflator
1991	409.50	¹ 100.00
1992	411.80	99.45
