

9. *An estimate of the total number of hours needed annually to complete the requirement or request:* 190 hours.

10. *Abstract:* 10 CFR part 150 provides certain exemptions from NRC regulations for persons in Agreement States. Part 150 also defines activities in Agreement States and in offshore waters over which NRC regulatory authority continues, including certain information collection requirements. The information is needed to permit NRC to make reports to other governments and the International Atomic Energy Agency in accordance with international agreements. The information is also used to carry out NRC's safeguards and inspection programs.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, Maryland 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by September 14, 2009. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

NRC Desk Officer, Office of Information and Regulatory Affairs (3150-0032), NEOB-10202, Office of Management and Budget, Washington, DC 20503. The Acting NRC Clearance Officer is Tremaine Donnell, (301) 415-6258.

Dated at Rockville, Maryland, this 5th day of August, 2009.

For the Nuclear Regulatory Commission.
Tremaine Donnell,
Acting NRC Clearance Officer, Office of Information Services.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2009-0334]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to the Office of Management and

Budget (OMB) and solicitation of public comment.

SUMMARY: The NRC invites public comment about our intention to request the OMB's approval for renewal of an existing information collection that is summarized below. We are required to publish this notice in the **Federal Register** under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* NRC Form 531, Request for Taxpayer Identification Number.

2. *Current OMB approval number:* OMB No. 3150-0188.

3. *How often the collection is required:* One time from each applicant or individual to enable the Department of the Treasury to process electronic payments or collect debts owed to the Government.

4. *Who is required or asked to report:* All individuals doing business with the U.S. Nuclear Regulatory Commission, including contractors and recipients of credit, licenses, permits, and benefits.

5. *The number of annual respondents:* 300.

6. *The number of hours needed annually to complete the requirement or request:* 25 hours (5 minutes per respondent).

7. *Abstract:* The Debt Collection Improvement Act of 1996 requires that agencies collect taxpayer identification numbers (TINs) from individuals who do business with the Government, including contractors and recipients of credit, licenses, permits, and benefits. The TIN will be used to process all electronic payments (refunds) made to licensees by electronic funds transfer by the Department of the Treasury. The Department of the Treasury will use the TIN to determine whether the refund can be used to administratively offset any delinquent debts reported to the Treasury by other government agencies. In addition, the TIN will be used to collect and report to the Department of the Treasury any delinquent indebtedness arising out of the licensee's or applicant's relationship with the NRC.

Submit, by October 13, 2009, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice. Comments submitted in writing or in electronic form will be made available for public inspection. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed. Comments submitted should reference Docket No. NRC-2009-0334. You may submit your comments by any of the following methods. Electronic comments: Go to <http://www.regulations.gov> and search for Docket No. NRC-2009-0334. Mail comments to NRC Clearance Officer, Tremaine Donnell (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Questions about the information collection requirements may be directed to the NRC Clearance Officer, Tremaine Donnell (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, by telephone at 301-415-6258, or by e-mail to INFOCOLLECTS.Resource@NRC.GOV.

Dated at Rockville, Maryland, this 4th day of August 2009.

For the Nuclear Regulatory Commission.

Tremaine Donnell,
Acting NRC Clearance Officer, Office of Information Services.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2009-0145; Docket No. 40-9079]

Uranium One Americas; Antelope and JAB Uranium Project New Source Material License Application; Notice of Intent to Prepare a Supplemental Environmental Impact Statement

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Notice of Intent (NOI).

SUMMARY: Uranium One Americas (Uranium One) submitted an application for a new source material license for the Antelope and JAB Uranium Project to be located in Sweetwater County, Wyoming, approximately 38 miles northwest of Rawlins, Wyoming and approximately 90 miles southwest of Casper, Wyoming. The application proposes the construction, operation, and decommissioning of in-situ recovery (ISR), also known as in-situ leach, facilities and restoration of the aquifer from which the uranium is being extracted. Uranium One submitted the application for the new source material license to the U.S. Nuclear Regulatory Commission (NRC) by a letter dated July 3, 2008. A notice of receipt and availability of the license application, including the Environmental Report (ER), and opportunity to request a hearing was published in the **Federal Register** on May 19, 2009 (74 FR 23436). The purpose of this NOI is to inform the public that the NRC will be preparing a site-specific Supplemental Environmental Impact Statement (SEIS) to the Generic Environmental Impact Statement for In-Situ Leach Uranium Milling Facilities (ISR GEIS) for a new source material license for the Antelope and JAB Uranium Project, as required by 10 CFR 51.26(d). In addition, as outlined in 36 CFR 800.8, "Coordination with the National Environmental Policy Act (NEPA)," the NRC plans to use the environmental review process as reflected in 10 CFR part 51 to coordinate compliance with section 106 of the National Historic Preservation Act.

FOR FURTHER INFORMATION CONTACT: For general information on the NRC NEPA process or the environmental review process related to the Antelope and JAB Uranium Project application, please contact the NRC Environmental Project Manager, Johari Moore, at (301) 415-7694 or johari.moore@nrc.gov.

Information and documents associated with the Antelope and JAB Uranium Project, including the license application, are available for public review through our electronic reading room: <http://www.nrc.gov/reading-rm/adams.html> and on the NRC's Antelope and JAB Uranium Project Web page: <http://www.nrc.gov/info-finder/materials/uranium/apps-in-review/jab-antelope-new-app-review.html>. Documents may also be obtained from NRC's Public Document Room at the U.S. Nuclear Regulatory Commission Headquarters, 11555 Rockville Pike (first floor), Rockville, Maryland.

SUPPLEMENTARY INFORMATION:

1.0 Background

Uranium One submitted the application for a new source material license to the NRC for ISR facilities by a letter dated July 3, 2008. A notice of receipt and availability of the license application, including the ER, and opportunity to request a hearing was published in the **Federal Register** on May 19, 2009 (74 FR 23436). No requests for hearing were received.

The NRC is preparing a SEIS that will tier off of the ISR GEIS (NUREG-1910). The NRC staff is planning to place ads in newspapers serving communities near the proposed site requesting information and comments from the public regarding the proposed action. Also, NRC staff plans to meet with and gather information from local agencies and public interest groups in conjunction with a visit to the proposed site. However, no public scoping meetings will be held as part of this review. NRC staff may also use relevant information gathered for the GEIS to define the scope of the SEIS. The NRC staff is consulting with Bureau of Land Management, U.S. Fish & Wildlife Service, U.S. Army Corps of Engineers, Wyoming Department of Environmental Quality, Wyoming State Historic Preservation Office, Shoshone and Arapaho Tribal Historic Preservation Offices, Wyoming Game and Fish Department, and Natural Resource Conservation District in preparing the SEIS.

The NRC has begun evaluating the potential environmental impacts associated with the proposed ISR facility in parallel with the review of the license application. This environmental evaluation will be documented in draft and final SEISs in accordance with NEPA and NRC's implementing regulations contained in 10 CFR part 51. The NRC is required by 10 CFR 51.20(b)(8) to prepare an Environmental Impact Statement (EIS) or supplement to an EIS for the issuance of a license to possess and use source material for uranium milling. The ISR GEIS and the site-specific SEIS fulfill this regulatory requirement. The purpose of the present notice is to inform the public that the NRC staff will prepare a site-specific supplement to the ISR GEIS as part of the review of the application.

2.0 Antelope and JAB ISR Facilities

The facilities, if licensed, would include a central processing plant, satellite facility, accompanying wellfields, and ion exchange columns. The process involves the dissolution of the water-soluble uranium from the mineralized host sandstone rock by

pumping oxidants (oxygen or hydrogen peroxide) and chemical compounds (sodium bicarbonate) through a series of injection wells. The uranium-rich solution is transferred from production wells to either the central processing plant or satellite facility for uranium concentration using ion exchange columns. Final processing is conducted in the central processing plant to produce yellowcake, which would be sold to off-site facilities for further processing and eventual use as commercial fuel for use in nuclear power reactors.

3.0 Alternatives To Be Evaluated

No-Action—The no-action alternative would be to deny the license application. Under this alternative, the NRC would not issue the license. This serves as a baseline for comparison.

Proposed action—The proposed Federal action is to issue a license to use or process source material at the proposed ISR facilities. The license review process analyzes the construction, operation, and decommissioning of ISR facilities and restoration of the aquifer from which the uranium is being extracted. The ISR facilities would be located in Sweetwater County, Wyoming, approximately 38 miles northwest of Rawlins, Wyoming and approximately 90 miles southwest of Casper, Wyoming. The applicant would be issued an NRC license under the provisions of 10 CFR parts 40.

Other alternatives not listed here may be identified through the environmental review process.

4.0 Environmental Impact Areas To Be Analyzed

The following areas have been tentatively identified for analysis in the SEIS:

- **Land Use:** Plans, policies, and controls;
- **Transportation:** Transportation modes, routes, quantities, and risk estimates;
- **Geology and Soils:** Physical geography, topography, geology, and soil characteristics;
- **Water Resources:** Surface and groundwater hydrology, water use and quality, and the potential for degradation;
- **Ecology:** Wetlands, aquatic, terrestrial, economically and recreationally important species, and threatened and endangered species;
- **Air Quality:** Meteorological conditions, ambient background, pollutant sources, and the potential for degradation;

- *Noise*: Ambient, sources, and sensitive receptors;
- *Historical and Cultural Resources*: Historical, archaeological, and traditional cultural resources;
- *Visual and Scenic Resources*: Landscape characteristics, manmade features and viewshed;
- *Socioeconomics*: Demography, economic base, labor pool, housing, transportation, utilities, public services/facilities, and education;
- *Environmental Justice*: Potential disproportionately high and adverse impacts to minority and low-income populations;
- *Public and Occupational Health*: Potential public and occupational consequences from construction, routine operation, transportation, and credible accident scenarios (including natural events);
- *Waste Management*: Types of wastes expected to be generated, handled, and stored; and
- *Cumulative Effects*: Impacts from past, present, and reasonably foreseeable actions at and near the site(s).

This list is not intended to be all inclusive, nor is it a predetermination of potential environmental impacts.

5.0 The NEPA Process

The SEIS for the Antelope and JAB Uranium Project will be prepared pursuant to the NRC's NEPA Regulations at 10 CFR part 51. The NRC will continue its environmental review of the application and as soon as practicable, the NRC and its contractor will prepare and publish a draft SEIS. The NRC currently plans to have a 45-day public comment period for the draft SEIS. Availability of the draft SEIS and the dates of the public comment period will be announced in the **Federal Register** and the NRC Web site: <http://www.nrc.gov>. The final SEIS will include responses to public comments received on the draft SEIS.

Dated at Rockville, Maryland, this 6th day of August 2009.

For the Nuclear Regulatory Commission.
Christopher McKenney,
Acting Deputy Director, Environmental Protection and Performance Assessment Directorate, Division of Waste Management and Environmental Protection, Office of Federal and State Materials and Environmental Management Programs.

SMALL BUSINESS ADMINISTRATION

Reporting Requirements Submitted for OMB Review

AGENCY: Small Business Administration.

ACTION: Notice of Reporting Requirements Submitted for OMB Review; Correction.

SUMMARY: The Small Business Administration published a document in the **Federal Register** of August 7, 2009, concerning Reporting and Recordkeeping Requirements. The document contained an incorrect word in the title.

FOR FURTHER INFORMATION CONTACT: Curtis Rich, 202-205-7030.

Correction:

In the **Federal Register** of August 7, 2009, FR document E9-18948, Volume 74, Number 151, page 39727, under **SUPPLEMENTARY INFORMATION** "Title" should read:

SUPPLEMENTARY INFORMATION:

Title: Disaster Home/Business Loan Inquiry Record.

Dated: August 7, 2009.

Curtis B. Rich,
Acting, Chief Administrative Information Branch.

SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

U.S. Canadian Minerals, Inc.; Order of Suspension of Trading

August 12, 2009.

It appears to the Securities and Exchange Commission that there is a lack of current and accurate information concerning the securities of U.S. Canadian Minerals, Inc. (OTC Bulletin Board symbol: USCN), a Nevada corporation. Questions have been raised about the accuracy and adequacy of publicly disseminated information concerning, among other things, U.S. Canadian Minerals' liabilities, stock issuances, recent merger transaction, business prospects, and recently acquired purported assets.

The Commission is of the opinion that the public interest and the protection of investors require a suspension of trading in the securities of U.S. Canadian Minerals, Inc.

Therefore, it is ordered, pursuant to Section 12(k) of the Securities Exchange Act of 1934, that trading in the securities of the above-listed company is suspended for the period from 9:30 a.m. EDT, August 12, 2009, through 11:59 p.m. EDT, on August 25, 2009.

By the Commission.

Florence E. Harmon,
Deputy Secretary.
