The purpose of the Agreement is to resolve, as well as to provide procedures for resolving, among the signatories, issues associated with issuance of a new license for the project, including Lake Murray lake levels and downstream minimum flows in the lower Saluda River. Major issues covered in the settlement include: (1) Public safety measures associated with the release of flows to the Saluda River downstream from the Saluda dam; (2) six measures to protect of aquatic resources, including trout and sturgeon, in the lower Saluda river; (3) minimum and recreation flow releases from the Saluda dam to the lower Saluda River; (4) a low-flow operating protocol, except for the lake level that would trigger implementation of the protocol; (5) upgrading unit runners to improve water quality in the downstream reaches; (6) leasing lands for waterfowl habitat; and (7) recreational improvements at existing sites around Lake Murray and along the lower Saluda River, as well as set-aside lands for future recreation sites.

SC Electric & Gas requests that the Commission: (1) Incorporate the obligations and agreements, as illustrated in Appendix A of the Agreement, without material modification into the terms and conditions of the new license; and (2) issue a new license for a term of 50 years.
