SUPPLEMENTARY INFORMATION:

Title: Quality Control Review Schedule.

OMB Number: 0584-0299.

Expiration Date: January 31, 2010.

Type of Request: Revision of a currently approved collection.

Abstract: FNS 380-1 is the Supplemental Nutrition Assistance Program's (SNAP) Quality Control (QC) Review Schedule which collects QC and household characteristics data. The information needed to complete this form is obtained from the SNAP case record and state quality control findings. The information is used to monitor and reduce errors, develop policy strategies, and analyze household characteristic data. We estimate that it takes 1.05 hours per response and .0236 hours per record for recordkeeping to complete the form.

The annual reporting burden for this collection is 58,065 hours and the annual recordkeeping burden for this collection is 1,322 hours. Overall, the annual reporting and recordkeeping burden associated with the completion of the FNS 380-1 is being decreased from 61,352 hours to 58,868 hours. This is a 2,484 hour decrease in the current

burden, which is a result of the State agencies' reduction in the number of cases being pulled for review over the minimum required review amount. We previously cleared the reporting and recordkeeping burden for this form under Office of Management and Budget (OMB) clearance number 0584-0299. OMB approved the burden through January 31, 2010. Based on the most recent table of active case sample sizes and completion rates (FY 2007), we estimate 56,065 FNS 380-1 worksheets and interviews will now be completed annually.

[Docket No. 0612242720–91220–04]

Coastal and Estuarine Land Conservation Program—Re-opening of FY 2010 Competition

AGENCY: NOS Office of Ocean and Coastal Resource Management (OCRM), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of funding availability; amendment.

SUMMARY: NOAA publishes this notice to amend the Federal Funding

Opportunity (NOS–OCRM–2010–2001655) entitled “Coastal and Estuarine Land Conservation Program (CELCP)—FY 2010 Competitive List” which was originally announced in the Federal Register on January 2, 2009 (74 FR 82). This notice announces changes to the eligibility criteria, program priorities, and selection criteria to implement the requirements of the Omnibus Public Lands Management Act of 2009 (March 30, 2009). As a result of these changes, the application period for proposals is re-opened to provide eligible states and territories with the opportunity to adjust project proposals to comport with the changes, which are summarized in this notice and more fully described in the full Federal Funding Opportunity (FFO) Announcement for this competition.

DATES: Final Applications must be received by Grants.gov (<http://www.grants.gov>) or be delivered to the OCRM office (address listed in this announcement) no later than 6 p.m. EDT on September 18, 2009. No facsimile or electronic mail applications will be accepted. Paper applications delivered after the deadline will not be accepted, regardless of postmark date. Any application received after the deadline will not be considered for funding in this competition.

Applications delivered in hard copy will be date and time stamped when they are received. Applications submitted through Grants.gov will have a date and time indication on them. Please Note: It may take Grants.gov up to two (2) business days to validate or reject the application. Please keep this in mind in developing your submission timeline.

ADDRESSES: All application materials can be found at the grants.gov portal at <http://www.grants.gov> or NOAA’s CELCP Web site under “Funding Opportunities” (http://coastalmanagement.noaa.gov/land/celcp_fundingop.html). They may also be requested by contacting the program officials identified below.

To Request an Application Package or for Further Information Contact: Elaine Vaudreuil (301) 713–3155 ext 103; E-mail: Elaine.Vaudreuil@noaa.gov; Fax: (301) 713–4370 or Elisabeth Morgan (301) 713–3155 ext 166; E-mail: Elisabeth.Morgan@noaa.gov; Fax: (301) 713–4367.

SUPPLEMENTARY INFORMATION:

The National Oceanic and Atmospheric Administration (NOAA), National Ocean Service (NOS), announces that it is amending the FY 2010 solicitation for the Coastal and Estuarine Land Conservation Program

(CELCP), originally published on January 2, 2009 (74 FR 82), to implement requirements in the Omnibus Public Lands Management Act of 2009, Public Law 111–11 (March 30, 2009). The program makes the following changes to the program requirements: at least 15% of appropriated funds shall now be available for CELCP projects that benefit National Estuarine Research Reserves; the program allows newly-eligible sources of in-kind match, including lands or interests in lands (easements) held by qualified non-governmental organizations and costs associated with lands or easements proposed for use as in-kind match, such as land acquisition expenses, land management planning, remediation, restoration or enhancement, that were not previously eligible; the value of in-kind match properties will now be based on the appraised value of the land or easement at the time of grant closing (which, for the purposes of this competition, valuation should be conducted within the nine months preceding the award expiration date) rather than at the time the property is acquired or donated; applicants must demonstrate that property sellers are willing participants in negotiations for sale of property at a mutually agreeable price; coastal states and territories must now ensure that proposed projects complement working waterfront needs; greater emphasis will be placed on applicants’ ability to demonstrate successful leveraging of funds; and NOAA may now select projects from this competition for additional FY 2010 funding requested in the President’s Budget as part of EPA’s Great Lakes Restoration Initiative, if appropriated.

Due to the amendments to the program, the due date for applications is extended until September 18, 2009. It is anticipated that projects funded under this announcement will still have a grant start date between March 1, 2010, and October 1, 2010.

Under this amended solicitation, NOS allows for modifications to applications originally received under the initial announcement, and allows new applications for projects from eligible applicants. Any proposal that was submitted to the initial solicitation within the initial deadline is not required to be resubmitted to be considered under this amendment. However, changes to the solicitation announced by this amendment may impact the viability or scoring of proposals submitted by applicants in response to the initial announcement. Applicants may revise proposals to address these changes; however, any revisions to such proposals must be
