

supplemented with questions designed to answer specific needs, such as estimating eligibility for government programs, examining pension and health care coverage, and analyzing individual net worth. These supplemental questions are included with the core and are referred to as "topical modules."

The topical modules for the 2008 Panel Wave 5 are as follows: Annual Income and Retirement Accounts; Taxes; Child Care; and Work Schedule. These topical modules were previously conducted in the SIPP 2004 Panel Wave 4 instrument. Wave 5 interviews will be conducted from January 1, 2010 through April 30, 2010.

The SIPP is designed as a continuing series of national panels of interviewed households that are introduced every few years, with each panel having durations of approximately 3 to 4 years. The 2008 Panel is scheduled for four years and four months and includes thirteen waves which began September 1, 2008. All household members 15 years old or over are interviewed using regular proxy-respondent rules. They are interviewed a total of thirteen times (thirteen waves), at 4-month intervals, making the SIPP a longitudinal survey. Sample people (all household members present at the time of the first interview) who move within the country and reasonably close to a SIPP primary sampling unit (PSU) will be followed and interviewed at their new address. Individuals 15 years old or over who enter the household after Wave 1 will be interviewed; however, if these people move, they are not followed unless they happen to move along with a Wave 1 sample individual.

The OMB has established an Interagency Advisory Committee to provide guidance for the content and procedures for the SIPP. Interagency subcommittees were set up to recommend specific areas of inquiries for supplemental questions.

The Census Bureau developed the 2008 Panel Wave 3 topical modules through consultation with the SIPP OMB Interagency Subcommittee. The questions for the topical modules address major policy and program concerns as stated by this subcommittee and the SIPP Interagency Advisory Committee.

Data provided by the SIPP are being used by economic policymakers, the Congress, State and local governments, and Federal agencies that administer social welfare or transfer payment programs, such as the Department of Health and Human Services and the Department of Agriculture.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The U.S. Census Bureau requests a revision to the Paperwork Reduction Act clearance for the Boundary and Annexation Survey (BAS) in order to conduct the Boundary Validation Program (BVP). The BVP for the 2010 Decennial Census will be administered in parallel with the 2010 BAS. The intent of this program is to provide each highest elected or appointed official (HEO) an opportunity to review the Census Bureau's boundary information for the legal entities included in the BAS. The 2010 BVP will include all actively functioning counties or statistically equivalent entities, incorporated places (including consolidated cities), minor civil divisions (MCDs), all federally recognized American Indian reservations (AIRs) and off-reservation trust land entities in the United States, and municipios, barrios and subbarrios in Puerto Rico. In addition, the Census Bureau will send a letter to the governor of each state explaining the 2010 BVP process and advising them that state boundaries will be reviewed in conjunction with relevant counties boundaries as part of the BVP.

##### II. Method of Collection

The 2010 BVP will be conducted in two phases, initial and final. During the initial BVP phase, every HEO in the BAS universe will receive a BVP form, a letter with instructions, and a CD containing a complete set of 2010 BAS maps in .pdf format for their governmental unit. The HEO is asked to review the 2010 BAS maps on the CD and return the BVP form within ten days of receipt. If the HEO determines that there are no changes to report, the HEO will sign and return the validated BVP form. If the HEO determines that boundary changes are needed, the HEO will be instructed to return the unsigned BVP form and work with their local BAS contact to submit changes through the BAS process. If either the HEO or the BAS contact submits 2010 BAS updates by March 1, 2010, the entity will be included in the second and final phase of the BVP.

In the final BVP phase, once the timely 2010 BAS updates are applied to the MAF/TIGER Database (MTDB), each HEO is provided a complete set of updated paper maps. This is their final opportunity to review the boundary and

verify that the BAS 2010 changes are reflected. In the final BVP phase, each HEO submits any remaining corrections directly to the Census Bureau using the instructions provided in the BAS respondent guide.

### III. Data

*OMB Control Number:* 0607-0151.

*Form Number:* BVP-1; BVP-2.

*Type of Review:* Regular submission.

*Affected Public:* All actively functioning counties or statistically equivalent entities, incorporated places (including consolidated cities), minor civil divisions (MCDs), all federally recognized American Indian reservations (AIRs) and off-reservation trust land entities in the United States, and municipios, barrios and subbarrios in Puerto Rico.

*Estimated Time per Response:* 2 hours.

*Estimated Total Annual Burden Hours:* 96,000 hours.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

Title III, Subtitle B, Section 321 through Section 328 of the United States-Oman Free Trade Agreement Implementation Act (the "Act") implements the textile and apparel safeguard provisions, provided for in Article 3.1 of the United States-Oman Free Trade Agreement (the "Agreement"). This safeguard mechanism applies when, as a result of the elimination of a customs duty under the Agreement, an Omani textile or apparel article is being imported into the United States in such increased quantities, in absolute terms or relative to the domestic market for that article, and under such conditions as to cause serious damage or actual threat thereof to a U.S. industry producing a like or directly competitive article. In these circumstances, Article 3.1 permits the United States to increase duties on the imported article from Oman to a level

that does not exceed the lesser of the prevailing U.S. normal trade relations (NTR)/most-favored-nation (MFN) duty rate for the article or the U.S. NTR/MFN duty rate in effect on the day before the Agreement entered into force.

The Statement of Administrative Action accompanying the Act provides that ITA's Committee for the Implementation of Textile Agreements (CITA) will issue procedures for requesting such safeguard measures, for making its determinations under section 322(a) of the Act, and for providing relief under section 322(b) of the Act.

In Proclamation No. 8332 (73 FR 80289, December 31, 2008), the President delegated to CITA his authority under Subtitle B of Title III of the Act with respect to textile and apparel safeguard measures.

CITA must collect information in order to determine whether a domestic textile or apparel industry is being adversely impacted by imports of these products from Oman, thereby allowing CITA to take corrective action to protect the viability of the domestic textile industry, subject to section 322(b) of the Act.

Pursuant to Section 321(a) of the Act and Section 7 of Presidential Proclamation 8332 of December 29, 2008, an interested party in the U.S. domestic textile and apparel industry may file a request for a textile and apparel safeguard action with CITA. Consistent with longstanding CITA practice in considering textile safeguard actions, CITA will consider an interested party to be an entity (which may be a trade association, firm, certified or recognized union, or group of workers) that is representative of either: (A) A domestic producer or producers of an article that is like or directly competitive with the subject Omani textile or apparel article; or (B) a domestic producer or producers of a component used in the production of an article that is like or directly competitive with the subject Omani textile or apparel article.

In order for a request to be considered, the requestor must provide the following information in support of a claim that a textile or apparel article from Oman is being imported into the United States in such increased quantities, in absolute terms or relative to the domestic market for that article, and under such conditions as to cause serious damage or actual threat thereof, to a U.S. industry producing an article that is like, or directly competitive with, the imported article: (1) Name and description of the imported article concerned; (2) import data demonstrating that imports of an Omani
