SUPPLEMENTARY INFORMATION:

I. Abstract

Title III, Subtitle B, Section 321 through Section 328 of the United States-Oman Free Trade Agreement Implementation Act (the "Act") implements the textile and apparel safeguard provisions, provided for in Article 3.1 of the United States-Oman Free Trade Agreement (the "Agreement"). This safeguard mechanism applies when, as a result of the elimination of a customs duty under the Agreement, an Omani textile or apparel article is being imported into the United States in such increased quantities, in absolute terms or relative to the domestic market for that article, and under such conditions as to cause serious damage or actual threat thereof to a U.S. industry producing a like or directly competitive article. In these circumstances, Article 3.1 permits the United States to increase duties on the imported article from Oman to a level

that does not exceed the lesser of the prevailing U.S. normal trade relations (NTR)/most-favored-nation (MFN) duty rate for the article or the U.S. NTR/MFN duty rate in effect on the day before the Agreement entered into force.

The Statement of Administrative Action accompanying the Act provides that ITA's Committee for the Implementation of Textile Agreements (CITA) will issue procedures for requesting such safeguard measures, for making its determinations under section 322(a) of the Act, and for providing relief under section 322(b) of the Act.

In Proclamation No. 8332 (73 FR 80289, December 31, 2008), the President delegated to CITA his authority under Subtitle B of Title III of the Act with respect to textile and apparel safeguard measures.

CITA must collect information in order to determine whether a domestic textile or apparel industry is being adversely impacted by imports of these products from Oman, thereby allowing CITA to take corrective action to protect the viability of the domestic textile industry, subject to section 322(b) of the Act.

Pursuant to Section 321(a) of the Act and Section 7 of Presidential Proclamation 8332 of December 29, 2008, an interested party in the U.S. domestic textile and apparel industry may file a request for a textile and apparel safeguard action with CITA. Consistent with longstanding CITA practice in considering textile safeguard actions, CITA will consider an interested party to be an entity (which may be a trade association, firm, certified or recognized union, or group of workers) that is representative of either: (A) A domestic producer or producers of an article that is like or directly competitive with the subject Omani textile or apparel article; or (B) a domestic producer or producers of a component used in the production of an article that is like or directly competitive with the subject Omani textile or apparel article.

In order for a request to be considered, the requestor must provide the following information in support of a claim that a textile or apparel article from Oman is being imported into the United States in such increased quantities, in absolute terms or relative to the domestic market for that article, and under such conditions as to cause serious damage or actual threat thereof, to a U.S. industry producing an article that is like, or directly competitive with, the imported article: (1) Name and description of the imported article concerned; (2) import data demonstrating that imports of an Omani

origin textile or apparel article that are like or directly competitive with the articles produced by the domestic industry concerned are increasing in absolute terms or relative to the domestic market for that article; (3) U.S. domestic production of the like or directly competitive articles of U.S. origin indicating the nature and extent of the serious damage or actual threat thereof, along with an affirmation that to the best of the requester's knowledge, the data represent substantially all of the domestic production of the like or directly competitive article(s) of U.S. origin; (4) imports from Oman as a percentage of the domestic market of the like or directly competitive article; and (5) all data available to the requester showing changes in productivity, utilization of capacity, inventories, exports, wages, employment, domestic prices, profits, and investment, and any other information, relating to the existence of serious damage or actual threat thereof caused by imports from Oman to the industry producing the like or directly competitive article that is the subject of the request. To the extent that such information is not available, the requester should provide best estimates and the basis therefor.

If CITA determines that the request provides the information necessary for it to be considered, CITA will publish a notice in the **Federal Register** seeking public comments regarding the request. The comment period shall be 30 calendar days. The notice will include a summary of the request. Any interested party may submit information to rebut, clarify, or correct public comments submitted by any interested party.

CITA will make a determination on any request it considers within 60 calendar days of the close of the comment period. If CITA is unable to make a determination within 60 calendar days, it will publish a notice in the **Federal Register**, including the date it will make a determination.

If a determination under section 322(b) of the Act is affirmative, CITA may provide tariff relief to a U.S. industry to the extent necessary to remedy or prevent serious damage or actual threat thereof and to facilitate adjustment by the domestic industry to import competition. The import tariff relief is effective beginning on the date that CITA's affirmative determination is published in the **Federal Register**.

Entities submitting requests, responses or rebuttals to CITA may submit both a public and confidential version of their submissions. If the request is accepted, the public version will be posted on the dedicated Oman

Free Trade Agreement textile safeguards section of the Office of Textile and Apparel (OTEXA) Web site. The confidential version of the request, responses or rebuttals will not be shared with the public as it may contain business confidential information. Entities submitting responses or rebuttals may use the public version of the request as a basis for responses.

II. Method of Collection

When an interested party files a request for a textile and apparel safeguard action with CITA, ten copies of any such request must be provided in a paper format. If business confidential information is provided, two copies of a non-confidential version must also be provided. If CITA determines that the request provides the necessary information to be considered, it publishes a **Federal Register** notice seeking public comments on the request.

To the extent business confidential information is provided, a non-confidential version must also be provided. Any interested party may submit information to rebut, clarify, or correct public comments submitted by any interested party.
