

construction and would enable the shipyard to meet the needs of the publicly owned marine transit system. *Final agency actions:* Section 106 determination of no historic properties affected, March 27, 2009; no use of section 4(f) property; and FONSI dated July 16, 2009. *Supporting documentation:* EA for the Ketchikan Shipyard Improvement Project signed June 12, 2009.

3. *Project name and location:* Colorado Springs Downtown Transportation Station, Colorado Springs, Colorado. *Project sponsor:* City of Colorado Springs Transit Services Division—Mountain Metropolitan Transit. *Project description:* The project involves the construction of a new downtown transportation station, located southwest of the existing station at South Sierra Madre Street and West Vermijo Avenue, to serve the City's Mountain Metropolitan Transit fixed-route (Metro) service. It will provide access and serve as a convenient multimodal transfer point for the Front Range Express (FREX) commuter bus service, proposed streetcar, proposed Front Range Commuter Rail, and other travel modes. *Final agency actions:* Section 106 determination of no historic properties affected; project-level air quality conformity determination; and FONSI dated July 14, 2009. *Supporting documentation:* EA for the Colorado Springs Downtown Station dated June 1, 2009.

4. *Project name and location:* Central Corridor Light Rail Transit Project, Minneapolis-St. Paul, Minnesota. *Project sponsor:* Metropolitan Council. *Project description:* The project entails the construction of 10.9 miles of light rail transit (LRT) between St. Paul and Minneapolis with service to the University of Minnesota and the State Capitol complex, including 9.7 miles of newly constructed guideway and 1.2 miles shared with the existing Hiawatha LRT. There will be twenty stations along the line including five shared with the existing Hiawatha LRT. The project will be primarily at-grade except for a new aerial structure over Interstate Highway I-35W, the use of existing bridges over Trunk Highway 280 (TH 280) and Interstate Highway I-94, and the existing Washington Avenue Bridge over the Mississippi River. Below grade infrastructure to allow for later construction of three future infill stations will be provided and an operations and maintenance facility will be constructed. The project will also include modifications to the Washington Avenue Bridge over the Mississippi River to improve current bridge conditions and to provide for

LRT operations, and conversion of Washington Avenue on the University of Minnesota's East Bank Campus to a transit/pedestrian mall extending from Walnut Street to Pleasant Street. *Final agency actions:* Section 106 Programmatic Agreement dated June 15, 2009; section 4(f) findings; project-level air quality conformity determination; and Record of Decision dated August 18, 2009. *Supporting documentation:* Central Corridor Light Rail Transit Project Final Environmental Impact Statement dated June 18, 2009.

Issued on August 27, 2009.
