

serves to protect the investor and the public interest in that it seeks to continue providing DMM unit algorithms with the order by order odd-lot information required to facilitate the timely opening of securities on the Exchange until Exchange systems can be modified to provide such information in an aggregated format.

#### *B. Self-Regulatory Organization's Statement on Burden on Competition*

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

#### *C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others*

No written comments were solicited or received with respect to the proposed rule change.

### **III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Because the proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act<sup>14</sup> and Rule 19b-4(f)(6) thereunder.<sup>15</sup>

The Exchange has requested the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest because such waiver will allow the Exchange to provide the DMM unit algorithms with order-by-order odd-lot information prior to the opening transaction without interruption until October 31, 2009, when the Exchange anticipates necessary modifications to its systems will be completed.

<sup>14</sup> 15 U.S.C. 78s(b)(3)(A).

<sup>15</sup> 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires the self-regulatory organization to submit to the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

Therefore, the Commission designates the proposal operative upon filing.<sup>16</sup>

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on August 21, 2009, NASDAQ OMX BX, Inc. (the "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Exchange has designated the proposed rule change as constituting a non-controversial rule change under Section 19(b)(3)(A) of the Act<sup>3</sup> and Rule 19b-4(f)(6) thereunder,<sup>4</sup> which renders the proposal effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

## II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

#### 1. Purpose

Nasdaq OMX BX implemented Flash and Cancel Orders on July 20, 2009.<sup>6</sup> Upon further review, Nasdaq OMX BX proposes to eliminate Flash and Cancel Orders effective September 1, 2009.

#### 2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,<sup>7</sup> in general, and with Section 6(b)(5) of the Act,<sup>8</sup> in particular, in that the proposal is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

### B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.

### C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments on the proposed rule change were neither solicited nor received.

## III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing rule change does not: (1) Significantly affect the protection of investors or the public interest; (2) impose any significant burden on competition; and (3) become operative for 30 days after the date of this filing, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act<sup>9</sup> and Rule 19b-4(f)(6) thereunder.<sup>10</sup>

A proposed rule change filed under Rule 19b-4(f)(6) normally may not become operative prior to 30 days after the date of filing.<sup>11</sup> However, Rule 19b-4(f)(6)(iii)<sup>12</sup> permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has requested that the Commission waive the 30-day operative delay. The Exchange requests this waiver so as to allow it to eliminate Flash and Cancel Orders on September 1, 2009.<sup>13</sup> Based on the foregoing, the Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest and hereby designates the proposal operative on September 1, 2009.<sup>14</sup>

At any time within 60 days of the filing of such proposed rule change the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors or otherwise in furtherance of the purposes of the Act.

<sup>9</sup> 15 U.S.C. 78s(b)(3)(A).

<sup>10</sup> 17 CFR 240.19b-4(f)(6).

<sup>11</sup> 17 CFR 240.19b-4(f)(6)(iii). In addition, Rule 19b-4(f)(6)(iii) requires that a self-regulatory organization submit to the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

<sup>13</sup> See SR-BX-2009-051, Item 7.

<sup>14</sup> For the purposes only of waiving the 30-day operative delay, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

[Release No. 34-60570; File No. SR-NASDAQ-2009-079]

### Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Eliminate Flash Orders

August 26, 2009.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on August 21, 2009, The NASDAQ Stock Market LLC ("Nasdaq") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by Nasdaq. Nasdaq has designated the proposed rule change as effecting a change described under Rule 19b-4(f)(6) under the Act,<sup>3</sup> which renders the proposal effective upon filing with the Commission. Nasdaq will implement the proposed rule change on September 1, 2009. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Nasdaq proposes a rule change to eliminate Flash Orders.<sup>4</sup> The text of the proposed rule change is below. Proposed new language is italicized; proposed deletions are in brackets.

4750. Nasdaq Market Center-Execution Services

4751. Definitions

The following definitions apply to the Rule 4600 and 4750 Series for the trading of securities listed on Nasdaq or

a national securities exchange other than Nasdaq.

(a) through (e) No Change.

(f) The term "Order Type" shall mean the unique processing prescribed for designated orders that are eligible for entry into the System, and shall include:

(1)-(10) No Change.

(11) *Reserved* ["Flash and Cancel Orders" are market or marketable limit orders which are to be executed in whole or in part immediately upon receipt by the System with any unfilled balance being displayed to Nasdaq market participants (and market data vendors) for potential execution for a period of time not to exceed one-half of one second. If any unfilled balance remains after such display, such marketable unfilled balance shall be cancelled back to the entering party, and such nonmarketable unfilled balance shall be retained by the System for potential execution. The System will provide an electronic method to distinguish the Flash Order during the flash period from the System's protected quote under Regulation NMS.]

(12)-(13) No Change.

(g) through (i) No Change.

4758. Order Routing

(a) Order Routing Process

(1) The Order Routing Process shall be available to Participants from 7:00 a.m. until 8:00 p.m. Eastern Time, and shall route orders as described below: All routing of orders shall comply with Rule 611 of Regulation NMS under the Exchange Act.

(A) The System provides three routing options. Of these three, DOT is only available for orders ultimately sought to be directed to either the New York Stock Exchange ("NYSE") or NYSE Amex. The System will consider the quotations only of accessible markets and will provide an electronic method to distinguish orders displayed during a prerouting display period from the System's protected quote under Regulation NMS. The three System routing options are:

(i) DOT ("DOT")—under this option, after checking the System for available shares if so instructed by the entering firm, orders are sent to other available market centers for potential execution, per entering firm's instructions, before being sent to the destination exchange, so long as the price at such market centers would not violate the Order Protection Rule. [If instructed by the entering firm, prior to sending orders to other available markets, such orders shall be displayed to Nasdaq market participants (and market data vendors)

for potential execution, at the NBBO price, for a period of time not to exceed one-half of one second as determined by Nasdaq.] Any un-executed portion will thereafter be sent to the NYSE or NYSE Amex, as appropriate, at the order's original limit order price. This option may only be used for orders with time-in-force parameters of either SDAY, SIOC, MDAY, MIOC, GTMC or market-on-open/close. Notwithstanding the foregoing, orders designated for participation in the NYSE or NYSE Amex opening or closing processes will not check the System for available shares prior to routing.

(ii) Reactive Electronic Only ("STGY")—under this option, after checking the System for available shares if so instructed by the entering firm, orders are sent to other available market centers for potential execution, per entering firm's instructions. When checking the book, the System will seek to execute at the price it would send the order to a destination market center. [If instructed by the entering firm, prior to sending orders to other available markets, such orders shall be displayed to Nasdaq market participants (and market data vendors) for potential execution, at the NBBO price, for a period of time not to exceed one-half of one second as determined by Nasdaq.] If shares remain un-executed after routing, they are posted on the book. Once on the book, should the order subsequently be locked or crossed by another accessible market center, the System shall route the order to the locking or crossing market center. With the exception of the Minimum Quantity order type, all time-in-force parameters and order types may be used in conjunction with this routing option.

(iii) Electronic Only Scan ("SCAN")—under this option, after checking the System for available shares if so instructed by the entering firm, orders are sent to other available market centers for potential execution, per entering firm's instructions, in compliance with Rule 611 under Regulation NMS. When checking the book, the System will seek to execute at the price it would send the order to a destination market center. [If instructed by the entering firm, prior to sending orders to other available markets, such orders shall be displayed to Nasdaq market participants (and market data vendors) for potential execution, at the NBBO price, for a period of time not to exceed one-half of one second as determined by Nasdaq.] If shares remain un-executed after routing, they are posted on the book. Once on the book, should the order subsequently be locked or crossed by another market center, the
