

applicable. HUD expects that grantees should be making draw-downs at least quarterly. HUD will be looking at this for both new project applications and as a condition of renewal awards.

8. Also as a reminder, up to 8 percent of an S+C grant may be used for eligible incurred administrative costs associated with administration of housing assistance. These funds must be drawn down at least quarterly. Draws must be for eligible expenses already incurred in the period immediately preceding the draw or to be incurred during the period immediately following the draw. HUD will recapture all unspent funds at the end of the grant term. If administrative costs exceed 8 percent, recipients must pay for these costs from another source.

9. Beginning in 2009, applicants for the S+C program will be permitted to apply only for 100 percent of the Fair Market Rent (FMR) and will no longer be permitted to request any amount that is greater or less than the local FMR.

10. The calculation of housing emphasis and leveraging for the CoC score will be calculated using only new project requests.

11. For 2009, the Samaritan Bonus Initiative will be replaced with a Permanent Housing Bonus. CoCs will be able to use funds for homeless disabled individuals and families or for chronically homeless individuals. As creating new permanent housing beds for chronically homeless individuals is still a HUD priority, HUD strongly encourages CoCs to use at least a portion of available bonus funds to create a project that will exclusively serve the chronically homeless.

Environmental Impact Statement,
Apostle Islands National Lakeshore, WI.**SUMMARY:** Pursuant to Section 102(2)(C)
of the National Environmental Policy
Act of 1969 (42 U.S.C. 4332(2)(C)), theNational Park Service (NPS) announces
the availability of the Draft General
Management Plan (GMP)/Wilderness
Management Plan (WMP)/
Environmental Impact Statement (EIS)
for Apostle Islands National Lakeshore,
Wisconsin.This document provides a framework
for management of Apostle Islands
National Lakeshore and the Gaylord
Nelson Wilderness, including its
resources, visitors, and facilities, for the
next 15-20 years. The document
describes four alternatives for
management of the park, including a no-
action alternative, and analyzes the
environmental impacts of those
alternatives.The NPS preferred alternative would
focus on providing opportunities for
more people to have an island
experience. Additional transportation
opportunities would be sought to
encourage visitors to come to Sand,Basswood, and Oak Islands. Some
additional visitor facilities would be
developed on these islands. There
would be no change in the number of
public docks in the park, but some
docks would be relocated, improved, or
expanded. The Bayfield Visitor Center
would be moved closer to the water to
improve contact with visitors and to be
located with an operations center. The
Little Sand Bay Visitor Center would be
replaced with a visitor contact station.
A new ranger station and accessible
beach ramp would be developed at
Meyers Beach. Two light stations would
be restored or rehabilitated, similar to
the Raspberry Island light station. The
wilderness area would continue to be
managed as it is now, with the
exception of the Oak Island group
campsite being removed and the site
restored.
