

Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

These preliminary results of review are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: August 31, 2009.

Ronald K. Lorentzen,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-S

COMMODITY FUTURES TRADING COMMISSION**Fees for Reviews of the Rule Enforcement Programs of Contract Markets and Registered Futures Associations**

AGENCY: Commodity Futures Trading Commission.

ACTION: Establish the FY 2009 schedule of fees.

SUMMARY: The Commission charges fees to designated contract markets and registered futures associations to recover the costs incurred by the Commission in the operation of its program of oversight of self-regulatory organization (SRO) rule enforcement programs (17 CFR part 1 Appendix B) (National Futures Association (NFA), a registered futures association, and the contract markets are referred to as SROs). The calculation of the fee amounts to be charged for FY 2009 is based upon an average of actual program costs incurred during FY 2006, 2007, and 2008, as explained below. The FY 2009 fee schedule is set forth in the **SUPPLEMENTARY INFORMATION**.

Electronic payment of fees is required.

DATES: Effective Dates: The FY 2009 fees for Commission oversight of each SRO rule enforcement program must be paid by each of the named SROs in the amount specified by no later than November 9, 2009.

FOR FURTHER INFORMATION CONTACT:

Stacy Dean Yochum, Deputy Executive Director, Commodity Futures Trading Commission, (202) 418-5157, Three Lafayette Centre, 1155 21st Street, NW.,

Washington, DC 20581. For information on electronic payment, contact Angela Clark, Three Lafayette Centre, 1155 21st Street, NW., Washington, DC 20581, (202) 418-5178.

SUPPLEMENTARY INFORMATION:**I. General**

This notice relates to fees for the Commission's review of the rule enforcement programs at the registered futures associations¹ and designated contract markets (DCM), which are referred to as SROs, regulated by the Commission.

II. Schedule of Fees

Fees for the Commission's review of the rule enforcement programs at the registered futures associations and DCMs regulated by the Commission:

Entity	Fee amount
Chicago Board of Trade	\$77,371
Chicago Mercantile Exchange ..	121,071
New York Mercantile Exchange	197,535
Kansas City Board of Trade	10,127
ICE Futures U.S.	32,683
Minneapolis Grain Exchange ...	62,449
HedgeStreet	14,375
Chicago Climate Futures Exchange	12,259
U.S. Futures Exchange	18,601
OneChicago	1,157
National Futures Association	179,641
Total	727,270

III. Background Information**A. General**

The Commission recalculates the fees charged each year with the intention of recovering the costs of operating this Commission program.² All costs are accounted for by the Commission's Management Accounting Structure Codes (MASC) system, which records each employee's time for each pay period. The fees are set each year based on direct program costs, plus an overhead factor.

B. Overhead Rate

The fees charged by the Commission to the SROs are designed to recover program costs, including direct labor costs and overhead. The overhead rate is calculated by dividing total Commission-wide overhead direct program labor costs into the total amount of the Commission-wide

overhead pool. For this purpose, direct program labor costs are the salary costs of personnel working in all Commission programs. Overhead costs consist generally of the following Commission-wide costs: indirect personnel costs (leave and benefits), rent, communications, contract services, utilities, equipment, and supplies. This formula has resulted in the following overhead rates for the most recent three years (rounded to the nearest whole percent): 109 percent for fiscal year 2006, 140 percent for fiscal year 2007, and 144 percent for fiscal year 2008.

C. Conduct of SRO Rule Enforcement Reviews

Under the formula adopted in 1993 (58 FR 42643, Aug. 11, 1993), which appears at 17 CFR Part 1 Appendix B, the Commission calculates the fee to recover the costs of its rule enforcement reviews and examinations, based on the three-year average of the actual cost of performing such reviews and examinations at each SRO. The cost of operation of the Commission's SRO oversight program varies from SRO to SRO, according to the size and complexity of each SRO's program. The three-year averaging computation method is intended to smooth out year-to-year variations in cost. Timing of the Commission's reviews and examinations may affect costs—a review or examination may span two fiscal years and reviews and examinations are not conducted at each SRO each year. Adjustments to actual costs may be made to relieve the burden on an SRO with a disproportionately large share of program costs.

The Commission's formula provides for a reduction in the assessed fee if an SRO has a smaller percentage of United States industry contract volume than its percentage of overall Commission oversight program costs. This adjustment reduces the costs so that, as a percentage of total Commission SRO oversight program costs, they are in line with the pro rata percentage for that SRO of United States industry-wide contract volume.

The calculation is made as follows: The fee required to be paid to the Commission by each DCM is equal to the lesser of actual costs based on the three-year historical average of costs for that DCM or one-half of average costs incurred by the Commission for each DCM for the most recent three years, plus a pro rata share (based on average trading volume for the most recent three years) of the aggregate of average annual costs of all DCMs for the most recent three years. The formula for calculating the second factor is: $0.5a + 0.5 vt =$

¹ NFA is the only registered futures association.

² See Section 237 of the Futures Trading Act of 1982, 7 U.S.C. 16a and 31 U.S.C. 9701. For a broader discussion of the history of Commission Fees, see 52 FR 46070 (Dec. 4, 1987).

current fee. In this formula, “a” equals the average annual costs, “v” equals the percentage of total volume across DCMs over the last three years, and “t” equals

the average annual costs for all DCMs. NFA has no contracts traded; hence, its fee is based simply on costs for the most recent three fiscal years.

This table summarizes the data used in the calculations and the resulting fee for each entity:

	3-year average actual costs	3-year % of volume (percent)	2009 Fee (lesser of actual or calculated fee)
Chicago Board of Trade	\$77,371	31.0879	\$77,371
Chicago Mercantile Exchange	121,071	55.2977	121,071
New York Mercantile Exchange	306,092	11.2605	197,535
Kansas City Board of Trade	18,998	0.1591	10,127
ICE Futures U.S.	50,712	1.8545	32,683
Minneapolis Grain Exchange	124,466	0.0548	62,449
North American Derivatives Exchange	28,685	0.0082	14,375
Chicago Climate Futures Exchange	24,457	0.0076	12,259
U.S. Futures Exchange	37,173	0.0038	18,601
OneChicago	1,157	0.2367	1,157
Subtotal	790,181	547,628
National Futures Association	179,641	179,641
Total	969,822	727,270

An example of how the fee is calculated for one exchange, the Minneapolis Grain Exchange, is set forth here:

a. Actual three-year average costs equal \$124,466.

b. The alternative computation is:
(.5) (\$124,466) + (.5) (.000548) (\$790,181) = \$62,449

c. The fee is the lesser of a or b; in this case \$62,449.

As noted above, the alternative calculation based on contracts traded is not applicable to NFA because it is not a DCM and has no contracts traded. The Commission’s average annual cost for conducting oversight review of the NFA rule enforcement program during fiscal years 2007 through 2009 was \$179,641 (one-third of \$538,923). The fee to be paid by the NFA for the current fiscal year is \$179,641.

Payment Method

The Debt Collection Improvement Act (DCIA) requires deposits of fees owed to the government by electronic transfer of funds (See 31 U.S.C. 3720). For information about electronic payments, please contact Angela Clark at (202) 418-5178 or aclark@cftc.gov, or see the CFTC Web site at <http://www.cftc.gov>, specifically, <http://www.cftc.gov/cftc/cftcelectronicpayments.htm>.

Regulatory Flexibility Act

The Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, requires agencies to consider the impact of rules on small business. The fees implemented in this release affect contract markets and registered futures associations. The Commission has previously determined that contract markets and registered

futures associations are not “small entities” for purposes of the Regulatory Flexibility Act. Accordingly, the Chairman, on behalf of the Commission, certifies pursuant to 5 U.S.C. 605(b) that the fees implemented here will not have a significant economic impact on a substantial number of small entities.

Issued in Washington, DC on September 1, 2009, by the Commission.

David Stawick,
Secretary of the Commission.
