

average closing price of at least \$1.00 for 30 consecutive trading days, which evidences those companies' suitability for continued listing.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act¹¹ and Rule 19b-4(f)(6) thereunder.¹²

A proposed rule change filed pursuant to Rule 19b-4(f)(6) under the Act¹³ normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6)¹⁴ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has requested that the Commission waive the 30-day operative delay because the Exchange believes that: (i) Doing so will avoid potential confusion and inconsistent treatment of companies that could arise if the Exchange was unable to apply this provision on August 31, after having applied such a provision during the temporary suspension period, and then doing so again on September 30 after the filing becomes operative, (ii) such a waiver will allow the Exchange to implement a standard substantially similar to that in place at Nasdaq, and (iii) the Commission has previously published

for public comment the temporary suspension of the dollar price continued listing standard (which included the same early cure provision as proposed in this filing) and received no comments.

The Commission believes that waiving the 30-day operative delay¹⁵ is consistent with the protection of investors and the public interest. As noted by the NYSE, the proposal was previously published for comment and implemented during the temporary suspension of the dollar price continued listing standard.¹⁶ The Commission received no comments on this change. In addition, the proposal will avoid confusion as to the applicable compliance period and is not inconsistent with how NASDAQ applies its compliance period. For these reasons, the Commission believes it is appropriate to waive the 30-day operative delay, allowing the proposed rule change to become operative upon filing.

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or

comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room, 100 F Street, NE., Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of such filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make publicly available. All submissions should refer to File Number SR-NYSE-2009-88 and should be submitted on or before September 30, 2009.

Regional Transportation District (RTD),¹ a noncarrier, has filed a verified notice of exemption under 49 CFR 1150.31 to acquire from Union Pacific Railroad Company (UP) approximately 32.97 miles of rail line, known as the Boulder Industrial Lead, extending from milepost 0.2 (north of Denver) to approximately milepost 33.17, including the Lakeside Spur (Boulder County), in the Counties of Adams, Boulder, Broomfield, and Weld, CO. According to RTD, UP will retain an exclusive freight easement for the trackage on the Boulder Industrial Lead, and UP will retain the exclusive right to operate freight service on the entire line.
