### Department of the Navy

#### Notice of Record of Decision for Norfolk Harbor Channel Dredging, Norfolk and Portsmouth, VA

**AGENCY:** Department of the Navy, DoD.

**ACTION:** Notice.

**SUMMARY:** The Department of the Navy (DON), after carefully weighing the operational and environmental consequences of the proposed action, announces its decision to deepen approximately five miles of Norfolk Harbor Channel, the Federal navigational channel in the Southern Branch of the Elizabeth River, separating Norfolk and Portsmouth, Virginia. Dredging in the heavily-used waterway would occur from the Lamberts Point Deperming Station in the Lamberts Bend Reach, south to Naval Support Activity Norfolk Naval Shipyard, commonly referred to as the Norfolk Naval Shipyard (NNSY), in the Lower Reach. Dredged material would be placed at The U.S. Army Corps of Engineers' (USACE) Craney Island Dredged Material Management Area (CIDMMA). The deepening project will establish continuously safe and expeditious transit routes for U.S. Naval Ships to Lamberts Point Deperming Station and NNSY. Dredging would occur completely within the existing USACE-maintained federal navigation channel. In its decision, the Navy considered applicable executive orders, including an analysis of the effects of its actions in compliance with the Endangered Species Act, the Coastal Zone Management Act, and the National Historic Preservation Act, and the requirements of Executive Order (EO) 12898, *Federal Actions to Address Environmental Justice in Minority Populations and Low Income Populations* and EO 13045, *Protection of Children from Environmental Health Risks and Safety Risks*.

The proposed action will be accomplished as set out in Alternative A, described in the Final Environmental Impact Statement (EIS) as the preferred alternative. Implementation of the preferred alternative could begin immediately.

**SUPPLEMENTARY INFORMATION:** The Record of Decision (ROD) has been distributed to all those individuals who requested a copy of the Final EIS and agencies and organizations that received a copy of the Final EIS. The full text of the Navy's ROD is available for public viewing on the project Web site at <http://www.norfolkredgingeis.com>, along with copies of the Final EIS and supporting documents. Single copies of the ROD will be made available upon request by contacting Ms. Caren Hendrickson, Naval Facilities Engineering Command Mid-Atlantic, telephone 757-444-1030.

### Notice of Proposed Information Collection Requests

**AGENCY:** Department of Education.

**SUMMARY:** The Director, Information Collection Clearance Division, Regulatory Information Management Services, Office of Management, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

**DATES:** Interested persons are invited to submit comments on or before November 9, 2009.

**SUPPLEMENTARY INFORMATION:** Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Director, Information Collection Clearance Division, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.
