

to participate in and provide oral testimony or documentary evidence at the hearing must file a written notice of intention to appear by October 1, 2009. To testify or question witnesses at the hearing, interested persons must submit (transmit, postmark, or deliver) a notice by October 1, 2009, providing the following information:

- Name, address, and telephone number of each individual who will give oral testimony;
- Name of the establishment or organization each individual represents, if any;
- Occupational title and position of each individual testifying;
- Approximate amount of time required for each individual's testimony;
- A brief statement of the position each individual will take with respect to the issues identified in this notice; and
- A brief summary of documentary evidence each individual intends to present.

OSHA emphasizes that the hearings are open to the public; however, only individuals who file a notice of intention to appear may question witnesses and participate fully at the hearing. If time permits, and at the discretion of the ALJ, an individual who did not file a notice of intention to appear may be allowed to testify at the hearing, but for no more than 10 minutes.

Hearing testimony and documentary evidence. Individuals who request more than 10 minutes to present their oral testimony at the hearing or who will submit documentary evidence at the hearing must submit (transmit, postmark, or deliver) the full text of their testimony and all documentary evidence no later than October 15, 2009.

The Agency will review each submission and determine if the information it contains warrants the amount of time the individual requested for the presentation. If OSHA believes the requested time is excessive, the Agency will allocate an appropriate amount of time for the presentation and will notify the individual of that action, and the reasons for that action, before the hearing. The Agency may limit to 10 minutes the presentation of any participant who fails to comply substantially with these procedural requirements, and may request that the participant return for questioning later. Before the hearing, OSHA will notify all participants of the time the Agency is allowing for their presentations and will provide them with prehearing guidelines and a hearing schedule.

Certification of the hearing record and Agency final determination. Following

the close of the hearing and any posthearing comment periods, the ALJ will certify the record to the Assistant Secretary of Labor for Occupational Safety and Health. The record will consist of all of the written comments, oral testimony, and documentary evidence received during the proceeding. The ALJ, however, will not make or recommend any decisions as to the content of the final standard. Following certification of the record, OSHA will review the record and issue the final rule based on the record as a whole.
