

properly assessed. Currently, the Division of Coal Mine Workers' Compensation is soliciting comments concerning its proposal to extend the Office of Management and Budget (OMB) approval of the Information Collection: Notice of Issuance of Insurance Policy (CM-921). A copy of the proposed information collection request can be obtained by contacting the office listed below in the **ADDRESSES** section of this Notice.

DATES: Written comments must be submitted to the office listed in the addresses section below on or before November 16, 2009.

ADDRESSES: Mr. Steven D. Lawrence, U.S. Department of Labor, 200 Constitution Ave., NW., Room S-3201, Washington, DC 20210, telephone (202) 693-0292, fax (202) 693-1451, e-mail Lawrence.Steven@dol.gov. Please use only one method of transmission for comments (mail, fax, or e-mail).

SUPPLEMENTARY INFORMATION

I. Background

The Black Lung Benefits Act as amended, and codified at 30 U.S.C. 933, requires that a responsible coal mine operator be insured and outlines the items each contract of insurance must contain. It also enumerates the civil penalties to which a responsible coal mine operator is subject, should these procedures not be followed. In addition, 20 CFR Part V, Subpart C, 726.208-.213 requires that each insurance carrier shall report to Division of Coal Mine Workers' Compensation (DCMWC) each policy and endorsement issued, cancelled, or renewed with respect to responsible operators. It states that this report will be made in such a manner and on such a form as DCMWC may require. It is also required that if a policy is issued or renewed for more than one operator, a separate report for each operator shall be submitted.

This information collection is currently approved for use through April 30, 2010.

II. Review Focus

The Department of Labor is particularly interested in comments that:

- * Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- * Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- * Enhance the quality, utility, and clarity of the information to be collected; and

- * Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

The Department of Labor seeks approval for the extension of this information collection in order to insure the responsible coal mine operator be insured and outlines the items each contract of insurance must contain.

Type of Review: Extension.

Agency: Division of Coal Mine Workers' Compensation

Title: Notice of Issuance of Insurance Policy (CM-921)

OMB Number: 1215-0059

Affected Public: Private Sector; Survivor Compensation.

BILLING CODE 7050-01-P

NATIONAL SCIENCE FOUNDATION**Notice of Permit Applications Received under the Antarctic Conservation Act of 1978 (Pub. L. 95-541)**

AGENCY: National Science Foundation.

ACTION: Notice of Permit Modification Received under the Antarctic Conservation Act of 1978, Public Law 95-541.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of requests to modify permits issued to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at Title 45 Part 670 of the Code of Federal Regulations. This is the required notice of a requested permit modification.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by October 15, 2009. Permit applications may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Room 755, Office of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

FOR FURTHER INFORMATION CONTACT:

Nadene G. Kennedy at the above address or (703) 292-7405.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and

designation of certain animals and certain geographic areas as requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Description of Permit Modification Requested

The Foundation issued a permit (2008-016) to Dr. Robert Garrott on October 1, 2007. The issued permit allows the applicant to tag new pups born each year in the Erebus Bay and to weigh a sample of the pups at parturition, approximately 20 days old, and 35 days old as part of a study of the Interactions of Environmental Variability, Life History Traits, and Demography in an Apex Antarctic Predator. Based on data collected so far and field observations, it appears that moms vary a lot in how much time they spend in the water with their pups teaching them to swim, forage, evade aggressive encounters with other seals, *etc.* It is believed that the amount of time pups spend in the water influences their weight when weaned, and likely their ultimate probability of survival once weaned.

The applicant would like to temporarily deploy a small temperature logging tag on the pups when they are weighed at 1-2 days old and remove the tag when they are weighed at 35 days old. The applicant has identified a small (5 grams) commercially manufactured temperature logging unit that can be mounted on the flipper. Once the tag is removed, the archived data will be used to quantify the pup’s swimming profile during the nursing period.

Location: McMurdo Sound.

Dates: October 2, 2009 to February 12, 2012.

Nadene G. Kennedy,

Permit Officer, Office of Polar Programs.
