Privacy Act of 1974; System of Records

AGENCY: Defense Intelligence Agency, DoD.

ACTION: Notice to delete systems of records.

SUMMARY: The Defense Intelligence Agency is deleting a system of records notice from its existing inventory of records systems subject to the Privacy Act of 1974, (5 U.S.C. 552a), as amended.

DATES: This proposed action will be effective without further notice on October 22, 2009 unless comments are received which result in a contrary determination.

ADDRESSES: DIA Privacy Act Coordinator, Records Management Section, 200 McDill Blvd., Washington, DC 20340.

FOR FURTHER INFORMATION CONTACT: Ms. Theresa Lowery at (202) 231-1193.

SUPPLEMENTARY INFORMATION: The Defense Intelligence Agency systems of records notices subject to the Privacy Act of 1974, (5 U.S.C. 552a), as amended, have been published in the **Federal Register** and are available from the address above.

The Defense Intelligence Agency is proposing to delete a system of records notice from its existing inventory of records systems subject to the Privacy Act of 1974, (5 U.S.C. 552a), as amended. This proposed deletion is not within the purview of subsection (r) of the Privacy Act of 1974, (5 U.S.C. 552a), as amended, which requires the submission of a new or altered system report.

Dated: September 15, 2009.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

Intent To Prepare a Supplemental Environmental Impact Statement for a Proposed 278 Megawatt Circulating Fluidized Bed Electric Generating Unit and Associated Infrastructure To Be Constructed and Operated by East Kentucky Power Cooperative, Inc., in Clark County, KY

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of Intent (NOI).

SUMMARY: East Kentucky Power Cooperative, Inc. (EKPC) has applied for a permit from the U.S. Army Corps of Engineers (Corps) to authorize unavoidable impacts to jurisdictional waters of the U.S. pursuant to Section 404 of the Clean Water Act (Section 404) and Section 10 of the Rivers and Harbors Act (Section 10). EKPC is proposing to construct and operate a 278 megawatt circulating fluidized bed electric generating unit (CFB) and associated infrastructure at the existing J.K. Smith Power Station (the Smith Site) in southern Clark County, Kentucky (Proposed Action). In addition to the CFB unit, other components of

the Proposed Action on the Smith Site include: An approximately one-mile, 345 kV electric transmission line; two (2) beneficial reuse structural fills using coal combustion by-products (CCB); two (2) landfills for the on-site disposal of CCB; an emergency drought water storage reservoir; several soil borrow areas for landfill cover and other site development uses; and a new water intake/outfall structure in the Kentucky River.

The Corps intends to prepare a Supplemental Environmental Impact Statement (SEIS) to evaluate the potential effects of the Proposed Action on the environment. The SEIS is to be based on a Final EIS and Record of Decision prepared by the U.S. Department of Energy in 2002/2003 for a proposed 540 megawatt coal-fired integrated gasification combined cycle (IGCC) electric generating plant at the same location, the Smith Site. That project, known as the Kentucky Pioneer IGCC Demonstration Project, was never built. USACE has reviewed the EIS prepared by DOE and, based on similarities between the two projects, has determined to adopt that EIS as the basis for USACE's review of the Proposed Action. USACE is preparing this Supplemental EIS (SEIS) to evaluate those aspects of the Proposed Action that are not substantially similar to the DOE project, as a result of changes in project parameters, existing environmental conditions, and relevant laws and regulations. Where appropriate, information from the DOE EIS will be incorporated in the SEIS.

A Notice of Intent (NOI) to prepare an SEIS for the Proposed Action was originally published in the **Federal Register** on October 6, 2006, by the Rural Utilities Service (RUS), an agency which administers the U.S. Department of Agriculture's Rural Development Utilities Programs. 71 FR 59070 (2006).

The Corps previously agreed to participate as a cooperating agency in the preparation of the SEIS in order to meet its NEPA obligations with respect to EKPC's request for a Section 404/Section 10 permit for the Proposed Action. As a result of the RUS decision to suspend financing for new baseload electric generation plants, RUS has informed the Corps that it does not intend to complete the SEIS at this time. Thus, the Corps has determined that it will assume the role of lead agency in order to complete the SEIS and satisfy its NEPA obligations with respect to EKPC's request for a Section 404/Section 10 permit for the Proposed Action.
