[Docket No. CP08-31-004]

Transcontinental Gas Pipe Line Corporation; Notice of Application

September 22, 2009.

Take notice that on September 11, 2009, Transcontinental Gas Pipe Line Corporation (Transco), 2800 Post Oak Boulevard, Houston, Texas 77056-6106 filed an application pursuant to section 7(c) of the Natural Gas Act (NGA) and Part 157 of the Commission's regulations, to amend its certificate granted by Commission Order issued on August 14, 2008¹ and as amended by Commission Order issued on October 23, 2008.² Transco proposes to revise its Exhibit K, cost of facilities in order to reflect increases in the cost of facilities for the Sentinel Expansion Project (Project) and to revise the initial recourse rates for Phase 2 of the Project. Transco states that the overall impact of the adjustments will be an increase of \$59.6 million to the estimated cost of the Project facilities which is attributable to higher than anticipated expenses for construction and restoration.

This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. k. *Description of Project:* The proposed Baranof Chinook Hydropower Project is part of a proposed three-phase project to build and operate a salmon research enhancement and rehabilitation facility. There are no proposed dams for this project, because Baranof Lake is a natural lake. Phase One will involve the construction of multiple intakes and penstocks, designed to withdraw water from separate locations on Baranof Lake. Phase Two will use the water from the penstocks to supply a bank of 14 Cornell Pump Turbines with a combined output of 600 kW. Phase Three will either use a bank of 28 Cornell Pump Turbines with a combined output of 1200 kW, or a pair of Francis turbines with an output between 900 kW and 1680 kW. The purpose of the project is to supply energy for the salmon facility and associated support infrastructure. The proposed project will not be connected to an interstate grid, and will not occupy federal lands.

When a Declaration of Intention is filed with the Federal Energy Regulatory Commission, the Federal Power Act requires the Commission to investigate and determine if the interests of interstate or foreign commerce would be affected by the project. The Commission also determines whether or not the project: (1) Would be located on a navigable waterway; (2) would occupy or affect public lands or reservations of the United States; (3) would utilize
