and the San Luis & Delta-Mendota Water Authority (Authority), the State lead agency, have prepared a Final Environmental Impact Statement (EIS) and a Final Environmental Impact Report (EIR) for the continuation of the Grassland Bypass Project until December 31, 2019 (Project). Reclamation proposes to enter a Use Agreement with the Authority for the continued use of a portion of the San Luis Drain after 2009 to convey subsurface agricultural irrigation water to Mud Slough (North). The Central Valley Regional Water Quality Control Board would need to revise their Basin Plan Amendment to delay compliance with selenium objectives for 2010 and amend the existing Waste Discharge Requirements for the Project in order to allow for anticipated drainage discharge into Mud Slough, and the Authority and the California Department of Fish and Game will need to amend their existing Memorandum of Understanding for the portion of Mud Slough North in the State's China Island Wildlife Area. Reclamation and the Authority would need to remove existing and future sediments from the affected portion of the San Luis Drain.

A Notice of Availability of the joint Draft EIS/EIR was published in the **Federal Register** on Thursday, January 15, 2009 (74 FR 2615). The written comment period on the Draft EIS/EIR ended March 16, 2009. The Final EIS/EIR contains responses to all comments received and reflects comments and any additional information received during the review period.

**DATES:** Reclamation will not make a decision on the proposed action until at least 30 days after release of the Final EIS/EIR. After the 30-day waiting period, Reclamation will complete a Record of Decision (ROD). The ROD will state the action that will be implemented and will discuss all factors leading to the decision.
