

Information collection ("FERC-592," OMB No. 1902-0157)	Number of respondents annually	Number of responses per respondent	Average burden hours per response	Total annual burden hours
	(1)	(2)	(3)	(1) × (2) × (3)
18 CFR Part 358 ¹ 18 CFR 250.16 FERC Form No. 592 log/format	85	1	116.62	9,913

Note: These figures may not be exact, due to rounding.

The total estimated annual cost burden² to respondents is \$611,446.22 [(9,913 hours/2,080 hours per year) × \$128,297/year]. The average annual cost per respondent is \$7,193.48.

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) Reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The estimate of cost for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) Whether the log of data used to allocate capacity and the transportation discount information pipelines required to post and/or maintain under 18 CFR 250.16 are still being used, (2) whether the format for submitting data prescribed in the FERC Form No. 592 needs to be updated, (3) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (4) the accuracy of the agency's estimate of the burden of the proposed collection of information,

² The average number of hours an employee works per year is 2,080. The average employee costs \$128,297 per year.

including the validity of the methodology and assumptions used; (5) ways to enhance the quality, utility and clarity of the information to be collected; and (6) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
