SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we initiate our process for developing a CCP for Lee Metcalf NWR for the conservation and enhancement of its natural resources. This notice complies with our CCP policy to (1) Advise other Federal and State agencies, tribes, and the public of our intention to conduct detailed planning on this refuge and (2) obtain suggestions and information on the scope of issues to consider in the environmental document and during development of the CCP.

Background

The CCP Process

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd-668ee) (Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each national wildlife refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years in accordance with the Administration Act.

Each unit of the National Wildlife Refuge System was established for specific purposes. We use these purposes as the foundation for developing and prioritizing the management goals and objectives for each refuge within the National Wildlife Refuge System mission, and to determine how the public can use each refuge. The planning process is a way

for us and the public to evaluate management goals and objectives that will ensure the best possible approach to wildlife, plant, and habitat conservation, while providing for wildlife-dependent recreation opportunities that are compatible with each refuge's establishing purposes and the mission of the National Wildlife Refuge System.

Our CCP process provides participation opportunities for tribal, State, and local governments; agencies; organizations; and the public. At this time we encourage input in the form of issues, concerns, ideas, and suggestions for the future management of Lee Metcalf NWR.

We will conduct the environmental review of this project and develop environmental documents in accordance with the requirements of the National Environmental Policy Act of 1969, as amended (NEPA) (42 U.S.C. 4321 *et seq.*); NEPA regulations (40 CFR parts 1500-1508); other appropriate Federal laws and regulations; and our policies and procedures for compliance with those laws and regulations.

Lee Metcalf National Wildlife Refuge

This Refuge was established in 1963 and has two purposes:

(1) "For use as an inviolate sanctuary, or for any other management purpose, for migratory birds" (Migratory Bird Conservation Act); and

(2) "for (a) incidental fish and wildlife oriented recreational development, (b) the protection of natural resources, [and] (c) the conservation of endangered species or threatened species" (Refuge Recreation Act).

This Refuge is located in Ravalli County, 2 miles north of Stevensville, Montana. The Refuge is one of the Nation's smaller refuges, encompassing 2,800 acres, but it is one of the few remaining undeveloped areas in the Bitterroot Valley. The Refuge lies along the meandering Bitterroot River and is comprised of wet meadow and forested habitats and has created and modified wetlands. This Refuge provides numerous opportunities for the public, including walking trails and an outdoor classroom for students and visitors. The Refuge provides habitat for raptors, including ospreys and numerous waterfowl species.

Scoping: Preliminary Issues, Concerns, and Opportunities

We have identified preliminary issues, concerns, and opportunities that we may address in the CCP. During public scoping, we may identify additional issues.
