

determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Motions to intervene, protests and comments may be filed electronically via the internet in lieu of paper; *see*, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

Comment Date: October 19, 2009.

[Project No. 13573-000]

City of Hamilton; Notice of Competing Preliminary Permit Application Accepted for Filing and Soliciting Comments and Motions To Intervene

September 25, 2009.

On August 31, 2009, the City of Hamilton, Ohio, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Greenup Hydrokinetic Project, located immediately downstream from the Greenup Lock and Dam on the Ohio River, in Scioto County, Ohio. The sole

purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of: (1) A 100 to 300-foot-long by 20 to 50-foot-wide barge anchored to the riverbed; (2) 10 6 to 8-foot-diameter by 20-foot-long turbine-generators attached to the barge; (3) high-voltage cables transmitting the generated power to the existing transmission line located near the Project; and (4) appurtenant facilities. The proposed project would generate about 1,533 megawatt-hours.

Applicant Contact: Michael Perry, Director of Electric, City of Hamilton, 345 High Street, Hamilton, Ohio 45011; phone: (513) 785-7229 or by e-mail at: perry@ci.hamilton.oh.us.
