

in the definition of lead-based paint would primarily impact those buildings that already have been tested for the presence of lead-based paint by a certified lead risk assessor or lead inspector and found to have levels of lead in the paint between 600 ppm and 5,000 ppm (and the equivalent in mg/cm²).” Petition at 7.

IV. EPA Seeks Public Comment

Under TSCA section 21, EPA must either grant or deny a petition within 90 days. EPA is providing this opportunity for the public to comment on, or provide any additional information relevant to, the issues identified in the petition. In order for the Agency to consider such comments within the 90-day petition review period, EPA must receive the comments on or before October 21, 2009 (see **ADDRESSES**).

In assessing the usability of any data or information that may be submitted, EPA plans to follow the guidelines in EPA’s “A Summary of General Assessment Factors for Evaluating the Quality of Scientific and Technical Information” (EPA 100B-03/001), referred to as the “Assessment Factors Document.” The “Assessment Factors Document” was published in the **Federal Register** issue of July 1, 2003 (Ref. 6).
