

contacting Dr. Ruth Lunn (see **FOR FURTHER INFORMATION CONTACT** above). NTP will send registrants instructions to access the meeting remotely on or before October 30, 2009. Web conferencing is a new remote access option for RoC meetings. NTP will make every effort to ensure the best possible technical quality for these remote access options, but the audio and video quality cannot be guaranteed.

Attendees registered for remote access are invited to present oral comments. The formal public comment period is scheduled for November 2, 2009. Oral public comments should not exceed 7 minutes in length and each organization is allowed only one comment slot (in person or by remote access). Every effort will be made to accommodate the public, but the total time allotted for oral comments and the time allotted per speaker by remote access will depend on the number of people who register online to speak. Remote speakers who wish to use slides with their oral comments, must send an electronic file to Dr. Lunn by October 28, 2009, for the slides to be available for Web conferencing. In addition, speakers may send a copy of their oral statement or talking points, which can supplement and/or expand the oral presentation, for distribution at the meeting and for the meeting record.

Updated Draft Agenda

The updated draft agenda includes a scientific presentation on formaldehyde and leukemia requested by the NTP. Following this presentation, there will be opportunity for public comments on this topic. Pre-registration is not required to comment on this topic, and there is a 3-minute limit for each speaker.

Details about the meeting, including the updated draft agenda, are available at <http://ntp.niehs.nih.gov/go/29679> or by contacting Dr. Lunn (see **FOR FURTHER INFORMATION CONTACT** above). Updates to the meeting will be posted on this Web site.
